

SUPREME COURT UPHOLDS HARRISON ANTIDROPE ACT

Prohibition Officers Held Liable for Silence on Violations; Other Decisions Given

WASHINGTON, April 9. (AP)—Sustaining the validity of the Harrison Antidrope Act, the Supreme Court today ruled against the appeal of Thomas J. Casey, a Seattle lawyer, convicted of smuggling narcotics to inmates of the County Jail there and who attempted to have a fourteen months' sentence set aside. The court held that the section of the law making it a crime to sell narcotics except on a written order applied to all persons, and is not restricted to registered dealers paying the narcotic tax.

Justice McReynolds said that he had heard of the Harrison Act and Justice Brandeis considered in the Detroit business section. Justices Sanford and Brandeis also stated that in their opinion the Casey conviction should be reversed on grounds other than constitutional issues. Chief Justice Taft handed down the decision.

LAND BOUGHT BY INDIANS HELD SUBJECT TO TAXES

WASHINGTON, April 9. (AP)—The Supreme Court ruled today that States are permitted to impose taxes on oil produced under leases on land purchased by Indians and not a part of their original allotment in the absence of action by Congress to the contrary.

The case was appealed by the State of Oklahoma to enforce a \$20,000 tax imposed on the Gibson-Zahner Oil Corporation and others. Oklahoma insisted that the Federal government, by authorizing the purchase of the land, could not reserve it from State taxation, declaring that otherwise the State might be materially affected in raising revenue by the Indians purchasing city and other property now contributing taxes to the support of the State government.

MONTEANA TAX ON NATIONAL BANK HELD ILLEGAL

WASHINGTON, April 9. (AP)—The Montana tax on stock of the National Bank of Billings, levied by Yellowstone county, was set aside today by the Supreme Court. The tax was challenged as unconstitutional on the ground it was greater than the tax imposed on State banks.

The State defended the law on the ground that its law on national banks was levied as Congress had directed and that in taxing State banks it was prohibited by Federal law from levying on tax-exempt government securities.

UNITED STATES HOUSING PROPERTY MUST PAY TAX

WASHINGTON, April 9. (AP)—Mortgages may be properly sold to individuals by the United States Housing Corporation when title has been passed, the Supreme Court held today in a case brought by New Brunswick, N. J.

The court set aside the decision of the Circuit Court of Appeals which held that such property could not be taxed as long as the housing corporation held a mortgage on it for the purchase price.

RAILROADS WIN DECISION ON INJURY TO WORKERS

WASHINGTON, April 9. (AP)—Railroads are not liable under the Federal Employer's Liability Act, the Supreme Court ruled today when employees working on moving cranes are injured by a postal crane. This decision, of wide importance to railroads, was a victory for the Chesapeake and Ohio Railroad, which sought to set aside an award made to E. S. Leitch, a locomotive engineer injured by a postal crane at Seely, W. Va.

SHIP WITH RIGHT OF WAY WINS IN CRISIS DECISION

WASHINGTON, April 9. (AP)—An important rule in the navigation of ships was laid today by the Supreme Court, which decreed that vessels having right of way are not required to change their course to prevent collision. The decision went against the contention of the Pacific Mail Steamship Company. The decision came in suits arising from the collision of the Pacific Mail steamer Newport and the steam schooner Svea in November, 1922, at sea off San Francisco. The Svea had the right of way and steamed on her course. The lower Federal court held that the Svea should have given way and changed her course when it be-

LINDBERGH SETS RECORD

Flying Ambassador Keeps Out of Air Seventy-two Hours at Santa Barbara

SANTA BARBARA, April 9. (Exclusive)—Col. Lindbergh, America's flying ambassador, has set what is believed to be a new record unintentionally. At 2:30 p.m. today he had gone for seventy-two hours without setting foot in an airplane. A stay of more than forty-eight hours on the ground is unusual for Lindbergh, for since his flight to Paris last year he has been continually hopping about the country. For a short period last fall he rested in Panama.

Another picnic was on Col. Lindbergh's schedule today. He was driven over the San Marcos Pass to the hunting lodge of Dwight Murphy, retired capitalist of Santa Barbara, on the Santa Ynez River, twenty-three miles from here.

COURT UPHOLDS TARIFF CLAUSES

Flexible Provisions Declared to be Constitutional

WASHINGTON, April 9. (Exclusive)—The United States Supreme Court today unanimously upheld the constitutionality of the flexible provisions of the Tariff Act, giving the President authority to raise or lower duties as much as 50 per cent after investigation has been made by the Tariff Commission.

The opinion was given in a suit instituted by J. W. Hampton, Jr., & Co., exporters of raw cotton, against the President's recent action increasing the duty on barium chloride from 4 to 6 cents.

The decision was a personal victory for Marion Davies of Lodi, Cal., former judge on the United States Court of Customs Appeals and former chief of the Attorney General, who drew the flexible tariff provisions. Davies now is practicing law in Washington.

TAFT DELIVERS OPINION

In the case before the court today, the Chief Justice declared that the flexible tariff situation, which has been the subject of numerous disputes which have delayed action on many cases before the Tariff Commission.

In the case before the court today, the New York court contended that Section 315, which included the flexible tariff situation, was unconstitutional in that it is a delegation of power to the President of the United States. The Chief Justice, in his opinion, declared that the provision is unconstitutional, since its purpose is to protect the industries of the United States.

FEATURE OF GIFT TAX RULED OUT

Retroactive Provision Declared Invalid by Supreme Court

WASHINGTON, April 9. (AP)—The retroactive feature of the gift tax on the Revenue Act of 1924 was declared arbitrary and invalid by the Supreme Court today in a 6-3 decision.

The court, in a decision by Justice McReynolds, to which Justices Holmes, Brandeis and Stone dissented, declared that the gift tax could not be collected on bona-fide gifts which were made in 1924 prior to June 4, that year, the date on which the Revenue Act became law.

The issue was reached in an appeal by Fannie E. Untermeyer, who received \$100,000 in gifts from Isaac Untermeyer, a brother of Samuel Untermeyer, New York City, May 23, 1924. In the lower courts the government won in its contention that because the Revenue Act had been passed during the year 1924, it was retroactive. The court, however, held that the retroactive feature of the law, which would make the tax apply to all gifts in 1924, was unconstitutional.

KING APPROVES AMERICAN GIRL

(Continued from First Page)

somewhere. "Miss Watson, too, is fond of outdoor life, and we may settle in South Africa. I spent some time in Canada seeking a ranch, but did not find one to my liking. So now, perhaps on my honeymoon, I plan to go to South Africa."

The Prince said that he is going to Paris either tomorrow or the next day to see his parents and to have a long home-to-home talk with his mother. He has never visited the Rhode Island home of his fiancée, but knows her parents.

"This is a case of love, and not of a young man marrying the daughter of a millionaire American," he concluded. "The Watsons are comfortably fixed perhaps as a matter of fact. I know nothing about their finances—but I feel certain they are not as rich as riches go in America."

MRS. LINDBERGH GOES TO TORONTO VIA AIR

TORONTO, April 9. (AP)—A cabin airplane carrying Mrs. Evangeline L. Lindbergh, mother of Col. Charles A. Lindbergh, from Detroit to Toronto arrived at Leaside aerodrome today making the journey in two hours and twenty minutes.

The trip was made with strong winds driving the intermediate aerodrome hampering visibility. Mrs. Lindbergh will attend the convention of the Ontario Educational Association which opens tomorrow.

PINEAPPLE BOB LATEST MODE

Chicago Gets Preview of New Development in Couture

CHICAGO, April 9. (Exclusive)—The "pineapple bob," the latest fashion in hair dressing, has made its first appearance in Chicago.

The "pineapple bob," as displayed today at the convention of Illinois hairdressers, has been designed in favor of the new trend toward longer hair. Despite its hairier title, it is merely a distinct type of haircut arrangement.

Built in flattened curls and swirled into place at the back of the head like the skin of a pineapple, it gives the effect of long hair and supplies the deficiency, while the short hair is growing to desired lengths.

SINCLAIR TRIAL JURY SELECTED

(Continued from First Page)

When Justice Bailey mounted the bench at the opening of the trial he indicated he would follow the Texas plan of having the court select the jury. That procedure, however, was adopted in this jurisdiction. After he had filled the jury box with the first twelve, he began his questioning.

George V. Hoover, counsel for Sinclair, objected to the procedure and asked permission for the defense to question each prospective juror. When Justice Bailey overruled the objection, Hoover handed up a list of questions he wished to ask each juror. The court consented to put a half-dozen of the questions but declined to ask others on the list.

PARADE OF JURORS

Then began a parade of veniremen into and out of the jury box. Of the first twelve two were women, but neither remained.

In an thirty-one veniremen were excused for cause for having held opinions in case of four others. The defense removed because of government connections and nineteen were removed by peremptory challenges. Then by the defense and nine by the government. The prosecution had one challenge that was not used.

Sinclair came into court today accompanied by his wife and mother and took his seat beside his counsel, Martin W. Littleton, Hoover, Daniel G. T. Stanford. The women took front seats among the spectators in the first tier of the defense counsel.

The main business of the trial was the examination of the veniremen by going over the lists containing descriptions of the panel and counsel. When court adjourned the jury was placed in charge of two deputy United States marshals. They will keep the jury under observation until it is ready to return a verdict.

Owen J. Roberts, government special counsel in the case, announced that Robert W. Stewart, chairman of the board of the Standard Oil of Indiana, will not be called as a witness. He is a resident of Chicago and is the brother of the late John D. Rockefeller. He is the same story on the witness stand that he told the Senate Tariff Committee in 1924. He is the same story, Roberts said, Stewart's testimony will not be needed.

Stewart was expected to explain the formation of the Continental Trading Company of Canada, in which he and Sinclair were interested, and some of whose profits in Liberty Bonds are asserted by the government to have reached \$100,000. It was to trace these bonds that the government called Stewart.

Japanese Again Arouse Chinese

FOOCHOW, FUKIEN PROVINCE (China) April 9. (AP)—Strong feeling against Japan and the Japanese residents in this province has been aroused among the Chinese of the area growing out of an incident in which thirty to forty Chinese were slain by Japanese shells.

A Japanese vessel, proceeding during a heavy fog, was wrecked on the rocky shores of Hailing Island, a part of Fukien Province. Approximately 100 Chinese residents of the island swarmed aboard the distressed steamer and attempted to carry off the coal with which it was loaded.

In the midst of the operations three Japanese destroyers appeared and subjected the boat to heavy fire of machine guns and light shells. The islanders abandoned the ship, leaving thirty or forty dead.

Daughter of Admiral Dies

WASHINGTON, April 9. (AP)—Miss Margaret Elizabeth Moffitt, 15-year-old daughter of Rear-Admiral W. A. Moffitt, chief of the Naval Bureau of Aeronautics, and Mrs. Moffitt, died at her home here early today of pneumonia.

February 22, at George Washington memorial exercises at the National Theater Miss Moffitt was awarded a gold medal by the Daughters of the American Revolution for the best essay submitted last year on the subject, "New Hampshire's Part in the American Revolution." Gen. Pershing presented the prize on behalf of the D.A.R.

Giannini Family Off for Europe

SAN FRANCISCO, April 9. (AP)—A. P. Giannini, accompanied by Mrs. Giannini and their daughter, Miss Claire Giannini, left tonight for an extended tour of Europe. The trip to combine relaxation along with business relating to the considerable interests of the Bancitaly Corporation abroad.

RIOTS BEGIN ON EVE OF VOTING

Chicago All Set to Battle Gang Terrorism

CHICAGO, April 9. (Exclusive)—The "pneumonia" of the city, as it is called, is now in its worst stage. The city is all set to battle gang terrorism on the eve of voting.

The great fight in the campaign ending tomorrow has been to beat the "pneumonia" of the city. The city is all set to battle gang terrorism on the eve of voting.

DOVES FLIGHT SIGNAL

After Mayor Walker of New York City had accepted the memorial for the nation, 5-year-old Robert E. Lee IV, great-grandson of the commander, climbed to a railing before the crowd and released a cage of doves, symbolizing the states that would be his to make, will be here.

The doves whirled up alongside the mountain as a signal for the dropping of the veil. Shortly the curtains of the Confederacy on one and the standard of the United States on the other, fell away, revealing the near-by completed bust of Lee and the outline of his equestrian figure, a cheer rang out and the army band began playing softly.

The stirring notes of "Dixie," the war anthem of the Confederacy, and then the "Star Spangled Banner" was played.

WALKER'S ADDRESS

"I am proud that I am an American because he was one," Mayor Walker had said as he waved his hand to the monument in his honor. "Let me tell you, the man in whom God joined the warrior and the saint. Long after the pyramids have crumbled his figure like his memory, will be here."

The Mayor's theme was that of a reunited country and the greatness and power of the nation, re-created following the Civil War.

In the assembly that watched the unveiling were governors, a Congressional delegation, military leaders from North and South and a concourse of representatives of various patriotic bodies.

The figures of Gen. Lee in the first of a central group which will form the largest carving in history.

GIGANTIC SCULPTURE

Standing out in bas-relief on the sheer precipice more than 400 feet high the Lee carving from the top of the General's head to the hoofs of "Traveler," his horse, measures 130 feet. From the tip of the horse's ears to the feet of the rider the distance is 175 feet. The carving visually would cover the side of a building a city block in length and rise stories high.

Those who have made comparisons between the statue and other famous works of art have estimated that the Sphinx of Egypt could be placed on Traveler's neck and that the Lion of Lucerne in Switzerland would not be visible from the ground with the naked eye should it be placed in the crotch of the General's arm.

The design is that of Augustus Lukeman, who succeeded as sculptor Gustav Borglum, retired from activity after much discussion and litigation.

Flyers in Sea Saved by Tide

WEST PALM BEACH (Fla.) April 9. (AP)—After being forced down six miles off shore in a rough sea, a privately owned seaplane carrying George Aldridge as a passenger and John H. Delmot, local pilot, was swept in by the tide and beached without injuring the ship or its occupants.

Delmot and Aldridge had taken off from here for a flight to the Bahamas.

James Cox's Son
Dodge's Charge

NEW YORK, April 9. (AP)—The charges laid against James M. Cox Jr., 24-year-old son of the Ohio Governor and the Democratic candidate for President in 1920, after police had found his father's revolver, were dismissed today.

In the magistrate's court, charged with the possession of a loaded revolver, Cox Jr. could not identify the driver of a car that had been found in Fifth avenue on March 1st.

In Traffic Court a charge of driving a car without a license was dropped when Cox testified to have been near enough to the car to have been struck.

FOES OF CANCER LAY NEW PLANS

Public Will be Asked to Help Raise Large Fund

Specialists Hold Successful Session at Capital

Researching Along Various Lines Deemed Best

WASHINGTON, April 9. (AP)—The conference of a dozen cancer research specialists called today by Surgeon-General Hugh S. Cumming of the Public Health Service, ended its session with the members feeling much had been accomplished by the informal exchange of views. Among the conclusions drawn is that the money available for further study is woefully inadequate, and it was determined to call on the public for greater support.

The consensus of the specialists, the surgeon-general said, is that there is no single cause of the disease and that consequently many of the lines of study being followed might achieve success. He added that the general opinion is that the "germ theory is not the most profitable direction in which to continue research."

A committee was appointed to meet in several weeks and determine the best future course for further interchange of ideas. It is comprised of Dr. Francis Carter Wood, Crocker Research Foundation; Dr. James B. Murphy, Rockefeller Institute; Dr. H. W. Howell, director of the school of hygiene and public health, Johns Hopkins Medical School; and Dr. Warren Lewis, Carnegie Institution of Washington.

Bay Shooting Causes Panic

SAN FRANCISCO, April 9. (Exclusive)—Joseph Saft, a barber, shot and probably fatally wounded Edward Schary, an attorney, in the crush of a noon-day luncheon throng in the financial district today. He ran several blocks in a vain attempt to evade police pursuit and then turned the weapon on himself to fatal results.

Having thrown a throng of several hundred into panic when he shot the attorney, Saft drove hysteria into another crowd in the lobby of the Hunter-Duval Building when he chose that spot to end his own life. A note composed beforehand accused the attorney of unfair tactics in the sale of a barber shop.

Oakland Mayor Sees Fist Fight

OAKLAND, April 9. (AP)—While Mayor John Davis looked on, City Treasurer Oyster and Dan Marovich, who recently circulated a recall petition against Commissioner Young, had a fist fight outside the Oakland Council chamber today. Chief of Police Marshall separated the combatants. The cause of the quarrel was not ascertained.

Priest Faces Firing Squad

MEXICO CITY, April 9. (Exclusive)—Four executions, including one priest, were reported over the holiday period in connection with rebel activities. Alberto Cardenas, a priest, arrested following several attacks upon villages at Salaya, State of Jalisco, was executed by a firing squad, together with two companions, according to information reaching here today from Guadalajara.

SHAM BANK RAID TO TEST PLANE

Theoretical Robber Will Be Chased by Air in Chicago Police Experiment

CHICAGO, April 9. (Exclusive)—In order to test the worth of the airplane as an agency of pursuit in the chase of bank robbers, a law-enforcement association of the northwestern industrial district will execute a bank robbery and escape.

KIDNAPERS OF CHICAGO FACE COURT

Eight of Gang That Kept Auto Man Prisoner for Week Quickly Indicted

CHICAGO, April 9. (AP)—Eight arrested members of the kidnaping ring which held Thomas Gaylor, wealthy automobile dealer and hotel owner, a week, and negotiated for his release for \$100,000 ransom, were indicted today. If found guilty their maximum punishment may be electrocution.

Six of the reputed kidnapers in custody were arraigned and pleaded not guilty. They are Frank Carson, James O'Brien, William (Big Bill) Lewis, Harry Burton, Otto Schoen and Herman Hart.

All but Burton were remanded to jail as the offense upon which they are held is not bailable. Burton was taken to detective headquarters for further interrogation.

Harold Conliffe, sought as the "brains" of the kidnaping ring, remains at large, as does George Maher. Both were indicted.

World Court Senate Topic

WASHINGTON, April 9. (AP)—Echoes of the Senate's fight over American entry into the World Court were stirred today by Senator Borah, Republican, Idaho, imploring his colleagues to recall the opinion that it is "altogether improbable" foreign powers will agree on reservations to the League of Nations.

The chairman of the Foreign Relations Committee was discussing the resolution of Senator Gillett of Massachusetts, now before the committee, proposing that President Coolidge reopen negotiations with world powers who have objected to the reservations under which this country would join the court.

Senator Borah declared the only possible avenue of progress lay in reconsideration by the Senate of its reservations or in reconsideration by the objecting nations of their positions.

Jungle Huntress Weeps in Court

NEW YORK, April 9. (AP)—Mrs. Father Wilson, society matron and jungle huntress, wept in court this afternoon as a policeman and a detective testified that she had admitted to them that she had shot her husband, Dallet H. Wilson, on March 20.

At today's preliminary hearing Magistrate Corrigan declared after the first two witnesses had taken the stand that he considered a prima facie case had been established and adjourned the case until tomorrow.

Mrs. Wilson is charged with felonious assault and violation of the firearms law. Mr. Wilson is recovering.

State Senator Quinn, counsel for Mrs. Wilson, continued himself largely to asking the witnesses about the layout of the Wilson offices but one question contained a vague reference to large-scale bootlegging operations. On objection of the Prosecutor he withdrew that question.

MRS. JOAHANNA BURR, MUSIC COACH, DIES

CHICAGO, April 9. (AP)—Mrs. Johanna Burr, music coach and at various times accompanist for some of the world's famous singers, died yesterday at her home in Chicago, Ill. She was born in 1858 in Mannheim, Baden, Germany. Among artists for whom Mrs. Burr acted as accompanist were Mendelssohn, Brahms, Schumann, Heine, Bismarck, Campanari, Ysaye and Joachim.

POPULARITY OF HOOVER GROWS

Rhode Island and Hawaiian G.O.P. Back Secretary

Ohio Activity to be Resumed as Primary Nears

San Francisco Women Name Campaign Group

PROVIDENCE (R. I.) April 9. (AP) Senator Jesse H. Metcalf today was elected to head the Republican delegation from this State to the national convention. A resolution was adopted by the State convention recommending Hoover to the Rhode Island delegation as its choice for the Presidential candidate.

HAWAIIAN G.O.P. VOTES HOOVER BACKING

HONOLULU, April 9. (AP)—The Republican Territorial convention voted late today to instruct its delegates to support Herbert Hoover, Secretary of Commerce, for the Presidential nomination at the national convention at Kansas City.

James P. Winner, Territorial Republican chairman, was unanimously elected national committeeman. Princess David Kawanakoa was re-elected national committeewoman and the cheers of the convention delegates.

Victor Houston, delegate to Congress, and Robert Shingle, Territorial Senator, were elected delegates to the Kansas City convention.

John M. Ross of the Island of Hawaii and M. O. Paschal from the Island of Maui were named as alternates.

HOOVER FORCES TO START ACTIVITY AGAIN

WASHINGTON, April 9. (AP)—The Hoover forces have decided to resume active campaigning in Ohio before the national election, since the recent death of Senator Willis.

The Republican primaries are two weeks from tomorrow and prior to that time Representative Burton, the veteran member of the House from Cleveland, expects to deliver a number of speeches in his home State in Hoover's behalf. He will resume campaigning at Youngstown.

Representative Free, a Republican, who represents Mr. Hoover's home district in California, intends to speak in his behalf in Cincinnati and Columbus before the Ohio primaries.

BAY CITY WOMEN SWING INTO ACTIVITIES

SAN FRANCISCO, April 9. (Exclusive)—The women's division of the Hoover campaign swung into action here today with the following names on the campaign committee for the primary election:

Dr. Marianna Bertola, Mrs. A. P. Black, Mrs. John Mason Balthasar, Mrs. George Bernard, Mrs. C. E. Adcock, Mrs. Alfred McLaughlin, Mrs. Philip King Brown, Mrs. Suzanne Vervin Bolles, Margaret Mary Moran, Miss Jessie Lee Briggs, Mrs. Baylies Clark, Mrs. E. O. Denniston, Miss Margaret Curry, Mrs. Herbert Henry Darling, Mrs. Robert Armstrong, Dean Mrs. Jesse Steinhardt, Mrs. Sigmund Stern, Mrs. Pierson Durbin, Mrs. Paul Downing, Miss Lillian L. D. McLean, Mrs. A. H. Taylor, Mrs. William B. Hamilton, Mrs. Edward F. Glasser, Mrs. George S. Moore, Mrs. William Palmer Lucas, Mrs. Alfred Raas, Miss Alicia Mosgrove and Mrs. Milton Unger.

DELEGATES FROM MANILA FAVOR HOOVER

MANILA, April 9. (AP)—Although the two Filipino delegates to the Republican National Convention were untroubled by the insular committee, they will favor the Presidential nomination of Herbert Hoover, Secretary of Commerce, it was declared today.

The meeting was held in the auditorium of the Chamber of Commerce, and prepared for active work in behalf of the Secretary of Commerce by electing W. G. Paul president; Ira E. Kramer, second vice-president; Fred Schauer, secretary; Henry P. Lincoln, treasurer, and Mrs. Elmer L. Smith, executive secretary. The post of first vice-president will be filled later by the naming of a well-known resident in the northern part of the country.

The chief purpose of the club, it was announced, will be to urge all registered Republican voters to cast a ballot in the May election.

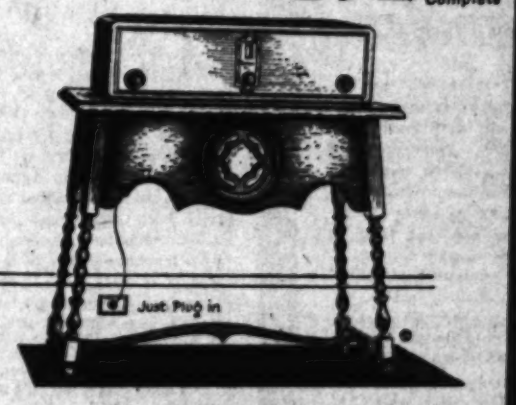

NAVAL FLYER RACES TO FATHER'S BEDSIDE

SPRINGFIELD (Ill.) April 9. (AP) Ending a race by air and rail from San Francisco, to reach the bedside of his father, Lieut. Charles Coe of the Navy Air Service arrived here today. He found his father, Louis J. Coe, Springfield merchant, critically ill.

WHITER CLOTHES

that last longer
PEERLESS laundered.

FRAGRANTLY fresh clothes that draw exclamations of delight... every time a **PEERLESS** bundle is opened. Whiter... cleaner... colors more vivid... and seemingly with new life! For the "World's Largest Laundry"... by a series of tests to determine the wear and tear of laundering, has developed a new washing process that actually doubles the life of your clothes and their colors. Imagine... fabrics retaining about 75 per cent of their original tensile strength and color after 100 **PEERLESS** washings and ironings! For through these experiments, scientists have developed formulas which extract all impurities from our washing soda. Pure soda, softer water, and **PEERLESS** traditional "Skill and Care" are equally responsible for this 1929 laundering innovation. And these modern women who have not yet tried **PEERLESS** are in for a delightful treat when they unwrap their first bundle laundered at **PEERLESS**... economically, too!

ARMORED CRAFT FOR RUM TRADE

Liquor Runners in Canada Building New Type Boat

Step Decided Upon to Defeat Chasers' Machine Guns

Speed Will Exceed That of Government Vessels

PORT COLBORNE (Ont.) April 9. (Exclusive)—Armored run-rigging craft will be installed for operation between this and near-by ports to the United States within a few weeks.

This is the answer of the exporting fraternity to the United States government's decision to have rum chasers at every five miles in an attempt to curb the large flow of Canadian liquor.

Hitherto, the rum runners have had no chance once they were overhauled by Uncle Sam's chasers because the latter have been manned with machine-guns and it was useless to argue against such odds. Now the tables will be turned and the chasers will find it almost an impossibility to make a chase in the open water.

SPEED TO BE FEATURE
The new boats are machine-gun proof and are also faster than the rum-chasing craft. The speed of the fastest of the run-chasing-boats has been estimated at about thirty miles an hour, while the speed of the new armored craft is stated to be about forty-two miles an hour. They are being built here under supervision of George R. Gamble, the great speed of the new boats will be made possible by their two 450 horsepower engines and their extremely sharp bows. While the boats will carry immense loads, they will be extremely low in the water. This feature also is an added asset.

STEEL SHEATHING
The steel on the new runners is said to be one-eighth of an inch thick, while in places where machine-gun bullets might injure the crew the steel is twice as thick. The boats will be forty feet long. Built with all-steel pilot houses they also have bullet-proof windows and steel hatches, which when raised will afford protection to the pilot. One of the new boats will take to the water early next week if progress continues as it has. Loads valued at from \$50,000 to \$40,000 will be transported by the craft.

CAR KNOCKED OFF TRACK BY AUTO

Arizona Motorist Provides Variation of Usual Crossing Smash

PHOENIX (Ariz.) April 9. (Exclusive)—A variation of the usual grade-crossing accident has been afforded on the Naco road, where a heavy freight car of the Southern Pacific system was knocked from the track by the impact of an automobile.

A standing freight train was not seen by the auto driver, Forrest L. Richmond, an auto-accessory salesman, who was returning from an evening spent across the border. The main damage was to the automobile, Richmond, and two companions escaping almost without injury.

AIR LINE'S FIELDS TO HAVE RADIO

Boeing Company Planning Direct Wireless Contact With All Its Ships

WASHINGTON, April 9. (AP)—The Federal Radio Commission granted construction permits today to the Boeing Aircraft Transport, Inc., for radio stations at nineteen landing fields used by the company. The company plans to keep in direct contact with its passenger, freight, and mail-carrying ships over the airways connected by the field and has also asked licenses for telephone transmitters for twenty-five planes.

Three wave lengths of 53.7, 71.5 and 131.8 meters length, and not exceeding 1000 watts power, will be utilized. Stations will be located at Chicago, Iowa City and Des Moines, Iowa; Omaha and North Platte, Neb.; Salt Lake City, Elko and Reno, Nev.; Cheyenne and Rock Springs, Wyo.; Sacramento, Oakland, Reading, Concord, Los Angeles and Fresno, Cal.; Seattle, Wash. and Portland and Medford, Or.

Senate Quiz on Patronage Asked

WASHINGTON, April 9. (AP)—Senate investigation of the disposal of Federal patronage in Georgia was asked in a resolution introduced today by Senator George, Democrat, Georgia.

The resolution was referred to the Postoffice Committee without comment. Senator George prepared the resolution as a result of charges by L. B. Peterson of Decatur, Ga., postmaster, who committed suicide recently, that he had been forced to contribute to Republican leaders to hold his job.

Senator Harris, Democrat, Georgia, is supporting the move for a Senate investigation which would be confined to the State of Georgia.

LAW MACHINERY AT WORK EARLY

Bills Being Prepared for 1929 Legislature

Early Drafting Gives Time for Corrections

Session Delays Often Due to Amendments

SACRAMENTO, April 9. (AP)—California's law-making machinery now is at work in preparation for the 1929 Legislative session.

The Legislative counsel bureau has just announced many bills are being offered for drafts well in advance of the meeting date next year, but the earliness is no criterion that there is going to be any more than the average number of new laws proposed.

BILL POLISHING ASKED
Gov. Young during past months has repeatedly urged members of his administration to whip their bills into shape well in advance of the Legislature so they could be introduced early and less time given during the session to amend them to cover technical defects, and also so that less time would be needed by him in considering them for approval or veto after passage. He also has urged civilian organizations which sponsor any number of bills in each Legislature to do likewise, expressing the belief that in this way the work of the Legislature could be cut down and the length of the session reduced.

While the majority of the bills offered thus far are proposed by Gov. Young's official family, several have come from legislators, it was announced at the counsel bureau.

PERMITS CLOSER CHECK
The advantage of this, as pointed out at the bureau, is that it permits a closer check for technical errors and constitutional defects, and also makes possible the sending out of tentative drafts for criticism before the final drafts are prepared. Later it will be impossible to send out drafts for criticism, and the check for defects will have to be made more hurriedly.

Gov. Young's principal complaint against legislation as presented for his approval last year, and his prime reason for urging early preparation of bills, was that the proposed laws were prepared so hurriedly that too many defects escaped detection and in many cases necessitated vetoing of laws needed in the conduct of State government.

British Woman Wins Air Race

HADLEIGH (Eng.) April 9. (AP)—Miss Whitford Spencer, widely known British woman flyer, won the Suffolk handicap race for light airplanes today, finishing twenty seconds ahead of her nearest male rival. She was the only woman in the contest, which was over a twenty-mile triangular course. She flew a Moth plane.

Arthur Brisba

On March 27, Arthur Brisba stated in the morning Exam 1,847,000 men are out of Over twenty-two per cent the union men in Los Angeles without work, that's one why the tailoring business Angeles is almost at a stand

Desperate conditions call desperate remedies. Our descriptions calls for cut price low that men will borrow to buy.

When we started this sale, determined not to accept the principles of ordinary concern, either guide or authority, but determine to give values that cannot get elsewhere, no what is claimed. These are unvarnished facts, and about of interest to you.

Square Metho

Fifteen years ago, when formed our first partnership we decided at the outset to make a promise we could not keep—never to try the flimsy of the public with illogical arguments and obvious exaggerations.

Actual experience conclusively proves that men prefer to buy with a firm run on these lines is never beneath the dignity of a man to secure high quality articles at a money saving price. It is particularly to treat these men of clear vision that we have inaugurated compelling tailoring sale.

WILBUR BACKS NAVY'S POLICY

Secretary Talks to Home
Folks in Iowa

Aircraft and Submarine Only
Auxiliary, He Says

Curtailing of Appropriation
Goes Uncriticized

BOONE (Iowa) April 9. (AP)—Secretary of the Navy Curtis D. Wilbur, returning for a visit to his home here in landlocked Iowa, tonight defended the Department's policy on aviation and submarines, but refused to criticize Congress for failing to pass appropriations for aircraft carriers and underwater vessels.

"The Navy recognizes the need of aircraft and submarines for the naval service," he said, "but the omission by Congress of our proposed aircraft carriers and submarines from the building program would indicate the propaganda in favor of the submarine and the airplane has lost its force."

Secretary Wilbur reviewed recent naval history as to controversies over the relative merits of surface craft, submarines and airplanes. Developments, he said, have "fully justified the stand of the Navy Department that the surface ship is an essential part of the naval establishment, and that the airplane, like the submarine, is an auxiliary to the surface craft."

He declared his department had taken an important part in the development of airplane engines which made transoceanic flight possible. He was guest of honor at an informal reception before leaving for Washington. Visits with relatives and boyhood friends occupied the rest of his brief visit.

From 1911 to last October, Mr. Day was president of the Equitable Life Assurance Society of the United States and on his retirement became chairman of the board. In 1904 he headed the commission to Paris to purchase the Panama Canal rights. His report to President Roosevelt on the Alaskan service brought about a general reorganization.

MURDERER ELECTROCUTED
MICHIGAN CITY (Ind.) April 10. (Tuesday) (AP)—John Hall, 21-year-old Milwaukee youth, was electrocuted at the State prison here early this morning for the murder in November, 1926, of Louis Kreidler, South Bend druggist.

FRIANT DAM LAND DEAL AGREED ON

San Joaquin District to
Buy 550,000 Miller & Lux
Acres for \$8,750,000

MADERA, April 9. (Exclusive)—The Friant dam and San Joaquin River reclamation project took a long stride toward completion here today when the San Joaquin River Water Storage District board agreed to pay Miller & Lux \$8,750,000 for 550,000 acres on both sides of the river.

The project, for completion of which the district was formed four years ago, includes a dam across the river basin at Friant and 260,000 acre feet of water will be ponded on the land bought for this purpose.

The completion of the project calls for an expenditure of \$23,000,000, including building of the dam, main irrigation canals and purchase of farm lands to be resold to small farmers.

Of the land purchased and which includes property running from Mendota to Crowley's Landing, about 150,000 acres already are under irrigation.

Chief Engineer Harry Barnes, who has led in the negotiations for the district, said today that everything now is cleared for immediate construction work.

William A. Day, Trust Foe, Dies

NEW YORK, April 9. (AP)—William A. Day, who was popularly termed the "trust buster" for his prosecution of illegal combinations in restraint of trade, died at the age of 77, at St. Augustine, Fla., last night. It was announced here today. President Roosevelt appointed him assistant to the Attorney-General in 1903 to prosecute the trusts.

From 1911 to last October, Mr. Day was president of the Equitable Life Assurance Society of the United States and on his retirement became chairman of the board. In 1904 he headed the commission to Paris to purchase the Panama Canal rights. His report to President Roosevelt on the Alaskan service brought about a general reorganization.

MURDERER ELECTROCUTED

LOREE'S DREAMS OF MERGER FADE

Delaware and Hudson Chief
Out of Combine

Banker Kahn Turns Balance
Against Scheme

Four Eastern Roads Alone in
Combination

NEW YORK, April 9. (Exclusive)—Leonard F. Loree, powerful railroad man, on whose shoulders some thought they could see the mantle of the late E. H. Harriman, walked in William street today a defeated man. His imposing project of a \$1,000,000,000 merger of 50,000 miles of railroads into five great trunk lines had been smashed.

The president of the Delaware and Hudson emerged from a futile conference with his banker, Otto Kahn of Kahn, Loeb & Co. The conference had been a last effort to save his fifth trunk line scheme from the scrap heap to which it had been consigned by the other parties to the eastern railroad merger, the Pennsylvania, the New York Central, the Baltimore and Ohio, and the Nickel Plate.

DOWN TO DEFEAT
The meeting had been long and detailed and Mr. Loree had continued to advocate the fifth line plan for which he has fought for four years—the combination of the Delaware and Hudson and other roads with the Missouri, Kansas and Texas, St. Louis and Southwestern, Kansas City Southern and the Wash.

When it was all over sources close to Mr. Kahn, who also is banker for the Baltimore and Ohio and Pennsylvania, announced definitely that: (1) Mr. Kahn, despite denials, had intervened in the rail controversy and effected a settlement. (2) The four-system plan had been officially accepted by the eastern railroads.

LOREE ELIMINATED
(3) Mr. Loree, although he still believes in his fifth-line plan, will withdraw his opposition and will no longer be an active factor in the situation. Mr. Loree's defeat in the Kahn settlement was not without some compensation. Magazines on the other side of the table said "concessions" were made to him that made defeat acceptable to Mr. Loree and advantageous to owners of Delaware and Hudson stock.

**Migration Meet
Regarded Futile**

HAVANA, April 9. (AP)—The second international immigration and emigration conference started its second week today with its agenda still in the committee stage and many of the members agreeing with local newspapers that such conferences are futile.

Some of the delegations point to the fact the representatives of the United States declined to participate in consideration of resolutions adopted at the first congress in Rome, as an evidence that congresses of this nature could have little effect on the questions which they are supposed to solve.

It was indicated Cuba would propose a continuation of the conference. Madrid was suggested by the Santo Domingo delegation as the next conference city, but no action was taken. One plan would have the conference date left for future call and it was freely predicted that if this is done, the call never would be issued.

**Lost-Ship Hunt
to be Started**

SEATTLE, April 9. (AP)—Unheard from since March 8, the motorship Lakum of Seattle with four Seattle men aboard and probably a number of Alaskan natives will be sought for in the Bering Sea by the United States fisheries vessels and the Coast Guard. Radio messages received here today from Unalaksa said that the craft touched there thirty-five days ago before sailing westward to pick up employees of fur ranches on isolated islands in the Bering Sea.

The Lakum, owned by the Kanaga Ranching Company of Seattle, was commanded by Capt. Harold E. Bowman, president of the company. The ship was to have called at Dutch Harbor and False Pass nearly three weeks ago before proceeding to Seattle.

**John Alden Dix
Taken by Death**

NEW YORK, April 9. (AP)—John Alden Dix, former Governor of New York, died tonight in Harbor Sanatorium. Death was caused by angina pectoris. He was 67 years of age.

Mr. Dix was Governor of New York from 1910 to 1912 and was prominent as a banker and manufacturer. His business affiliations included the presidency of the Iroquois Pulp and Paper Company of Thompson, N. Y., and the Moose River Lumber Company of McKeever, N. Y. He was a director of several companies engaged in the manufacture of pulp and paper.

He was born in Glens Falls on February 23, 1860, and educated at Cornell University, of which he later became a trustee.

**Original Bleriot
Plane in Flight**

BERLIN, April 9. (Exclusive)—One hundred thousand persons today witnessed a flight with the original Bleriot monoplane which was the first flying machine to cross the English Channel in 1909. Its flight today took place at an aviation meet at Staken Field. The little apparatus, humming like a sewing machine, soared gracefully enough, although Pilot Raab did not try to emulate the acrobatics performed a few minutes earlier by Pilots Udet, Thea Rasche and Fieseler.

The demonstration was made as the best evidence of the development of airplanes in less than a score of years.

EGG ROLLING DAY'S ORDER AT CAPITAL

Children Engage in Usual
Easter Monday Fete on
White House Lawn

WASHINGTON, April 9. (AP)—Joyfully pursuing the well-established custom of Easter Monday, Washington children thronged the White House grounds today to roll their Easter eggs on the spacious lawns.

Undaunted by chilly weather, they swarmed through the gates as soon as they were opened and continued to arrive in increasing numbers until, in the early afternoon, President Coolidge, watching from his office windows, saw his garden literally overrun with children.

The confusion was greatest immediately in front of the executive offices, where Rebecca, the pet White House raccoon, performed her choicest antics in a special pen for the benefit of her visitors. Mrs. Coolidge, in Massachusetts, where her mother is seriously ill, was missed by the youngsters as they roamed over the White House grounds.

Owing to the absence of Mrs. Coolidge, the children of Cabinet officers were not specially entertained, as in previous years.

HAYS ADMITS OUR FILMS LACK SEX OF SORT TO SUIT FRENCH

(Copyright, 1928, by Chicago Tribune.)

PARIS, April 9. (Exclusive)—Will Hays, American motion-picture censor, pleaded guilty today to one of the chief French indictments of American films. His presence in Paris has aroused a storm of criticism, not only of his attempts to force the government film commission to go easy on United States films, but also of the very pictures he has come abroad to defend.

"American films are chiefly a menace to the world civilization because the sex psychology therein is unnatural," says M. La Rumeur, a writer. "Because they are written with twelve-year intelligence, the Yankee films ignore realities so much that at present they are a danger to public health. The hypocrisy is an insult to world progress, keeping the masses from a

only Democratic in sight for the gubernatorial nomination. His aspiration for still another term was indicated by a recent Blaise speech, in which he said he would be unwilling to surrender his office while the Colorado River still is at stake.

FIRE ATTACKS MINE
JEROME (Ariz.) April 9. (Exclusive)—The heart of production from the United Verde mine was attacked by fire that consumed much of the portal of the great Hope vein tunnel, through which ore is taken from the mountain by electrically operated trains. Sparks from a broken trolley wire ignited

the dry timbers. Quick work of a helmet-equipped fire-fighting gang confined the damage to a short distance from the opening and enabled resumption of output with only a half-day's delay. Operation of the mine's elaborate ventilation system prevented flooding the mine with smoke.

COMMANDER RENAMED
BISBEE (Ariz.) April 9. (Exclusive)—Harry Jennings of the local camp, has been elected commander of the Arizona Department of United Spanish War Veterans, in a convention here of several hundred attendants.

PEACE SOCIETY MEETS MAY 7

Cleveland to Be Host of World Congress

Leading Statesmen of Many Nations Invited

Seeks to End War Through Disarming Policies

BY FREDERIC J. HASKIN

WASHINGTON, April 9. (Exclusive)—There will be an affair in Cleveland May 7 to 11 that will be at once a world conference on international justice, the centennial anniversary celebration of the American Peace Society, and the regular annual meeting of that organization. The occasion will be, it is promised, the greatest non-political peace congress America has ever entertained, a congress that will bring to its open meetings in Cleveland's great auditorium leading statesmen of all parts of the world, including Russia.

President Coolidge is honorary chairman of the centennial celebration committee and he may be present to deliver the opening address.

NOTABLES TO ATTEND

Among the distinguished foreigners whose attendance is expected are: Aristide Briand, French Minister of Foreign Affairs; Sir Austen Chamberlain, holder of the same portfolio in England; Dr. Gustav Stresemann, Germany's Foreign Secretary; Sir Esmé Howard, Count Paul Claudel, and Baron Giacomo de Martino, Ambassadors to the United States from England, France and Italy, respectively; Antonio Sanchez de Bustamante of Cuba, Judge of the Permanent Court of International Justice, The Hague; Dr. Paul M. Hilyon, formerly Russian Minister of Foreign Affairs; Dr. Fridtjof Nansen, formerly Norwegian Minister to the Court of St. James; Ignace Jan Paderewski, formerly Premier of Poland; Alberto Preti of Italy, President of the International Chamber of Commerce; Ignatz Seipel, Chancellor of Austria, and Nicholas Titulesco, Russian Minister of Foreign Affairs.

The American Peace Society, as stipulated in its charter, is a non-partisan, non-sectarian, and non-profit-making organization, free from motives of private gain. With the organization from which it sprang included, it is the first of its kind in the world. Its stated purpose is "to prevent the injuries of war by extending the methods of order and reasonable settlement among the nations, and to educate the people everywhere to a realization of international justice, fair play, and law."

POLICY ALWAYS SAME

The policy of the society is held to be the same today that it was a century ago: "It strives to work with our government and to protect the principles at the basis of our institutions. In our unpurged world of wholly independent national units, it stands for adequate national defense. It believes that the rational way to disarmament is to begin by disarming policies."

In preparation for the Cleveland meeting next month the society has created six study commissions, each of which will present a report that will be open to discussion by the official and associate delegates.

SENATOR BURTON CHAIRMAN

These commissions are: On the International Implications of Industry; on the International Implications of Justice; on Methods of Organization of Peace and Patriotic Groups; on the International Implications of Education; on the International Implications of Religion; and on the International Implications of Social Agencies.

Theodore E. Burton, the venerable Ohio Congressman, is the president of the Peace Society and chairman of the committee in charge of the Cleveland gathering.

Columbia Gives Large Pay Rise

NEW YORK, April 9. (AP)—Columbia University has announced sweeping advances in salaries of teachers and administrative officers in keeping with its policy of protecting "the dignity and freedom of the academic career."

The new schedule, as made public by Dr. Nicholas Murray Butler, president of the university, calls for a minimum salary of \$7500 a year for full professors instead of the present salary of \$6000; a minimum salary of \$5000 for associate professors in place of \$4500 and a minimum of \$3500 for assistant professors instead of \$2400.

In addition there will be salaries of \$8000, \$10,000 and \$12,000 to which individual full professors of exceptional service or distinction may advance, and salaries of \$8000 in the same class open to associate professors.

Subkoff Starts for Rumania

LONDON, April 9. (AP)—A dispatch to the Daily Mail from Brussels to day says Alexander Subkoff, brother-in-law of the former German Kaiser, has gone to Rumania as the only country in Europe which was prepared to give him hospitality.

The Liege newspaper Mosa is quoted as saying that he spent a few hours Friday with his wife, his mother and a Madame Nyssen. The women crossed the frontier at Tulle.

The Princess fervently embraced him and gave him an Easter egg which she had brought from Bonn. She said she had written the Grand Duchess of Luxembourg asking that she and her husband be allowed to settle in Luxembourg.

SMITH BEHIND IN DIRECTORY

DOUGLAS (Ariz.) April 9. (Exclusive)—Though Douglas is an American city in every sense, there has been discovery in the new city directory that the name of Smith falls 10 per cent behind the name of Garcia in the number enrolled. In Tucson, the name Lopez led all others.

AMERICA is now a two-car country

TODAY the American family is discovering that a second or third car is not only a convenience but an economy.

The schedule of the modern mother and her children is filled full. Days are rich in opportunity. In removing the barriers of distance, in enlarging the area of social contacts, in making it easy to meet the manifold engagements of the busy days, the family car does duty fully as important as the car which drives off in the morning to the office or the shop.

There are two ways to enjoy two-car ownership. Either buy a used car from a General Motors dealer or keep your present car, instead of trading it in, when you buy your new General Motors car.

Whichever plan you follow, you will be sure of satisfaction if you buy from a dealer handling Cadillac, LaSalle, Buick, Oakland, Oldsmobile, Pontiac or Chevrolet. These are General Motors dealers, selected for character, stability and service. Buy from them with confidence; and simplify your purchase, if you choose, through the convenient payments of the GMAC Plan.

RULE IN ITALY PASSES CRISIS

Fears for Abdication of
King Now Allayed

Clash Was Predicted Over
Elections Law

Mussolini Also Reported
as Evading Issue

LONDON, April 9. (AP)—An "Italian frontier" dispatch to the Socialist Herald says the crisis which that same source reported on March 29 as pointing to a possible abdication by King Victor Emmanuel has been settled.

The King, according to that dispatch, agreed with Giovanni Giolitti, former Premier, the new Fascist electoral law was unconstitutional. The law, as passed by the Chamber of Deputies, provided that only one ticket for Deputy places should be placed before the electors, and then only after it had been approved by the Fascist general council.

The earlier dispatch said the King was so strongly in doubt that he might refuse to confirm the law or, fearing a trial of strength with Mussolini, abdicate in favor of some more pliant member of the royal family.

The latest dispatch says Mussolini also shrank from an open conflict with the King and decided to modify the measure before introducing it in the Senate.

HEFLIN AGAIN FIRES AT SMITH; USES 160 PAGES OF HOT WORDS

WASHINGTON, April 9. (AP)—Another blast against the candidacy of Gov. Smith of New York for the Democratic Presidential nomination was inserted in the Congressional Record today by Senator Hefflin of Alabama, a Democrat, in the form of his reply to a telegram from Mayor William W. Gunt of Montgomery, Ala.

The reply constituted 160 pages of single-spaced typewriting, including a detailed review of Hefflin's previous charges that Catholics had tried to foment war between this country and Mexico, that the "Catholic-controlled press" practices

Mussolini of Italy and that this looked "like another arm of Roman power reaching over into the United States."

The Alabamian said that more than half the employees in the State Department here are Roman Catholics, declaring that the election of Smith as President would mean appointment by him of the Ambassador to Mexico and the Secretary of State. He said, "These two officials would in the main represent our government on the Mexican question and the policy of the United States would then be in the hands of Gov. Smith and his friends."

WORK SOON TO BEGIN ON HEN FEED PLANT

YAN NUYS, April 9.—Work of building the new San Fernando Valley distributing center of the Poultrymen's Co-operative Association, the largest poultry feed concern in Southern California, will begin the latter part of this week, it is announced by H. W. Amelung, head of the organization. The first unit of buildings will cost about \$10,000 and will be erected on Cedros avenue and the Southern Pacific tracks. A large site for future expansion has been leased at this point.

AFGHANISTAN KING RETURNS TO BERLIN

BERLIN, April 9. (AP)—King Amullah and Queen Souraya of Afghanistan arrived here from Paris today, traveling incognito.

CHIEF'S PLUS-FOURS WORRY POLICE FORCE

PASADENA, April 9.—Chief of Police Charles H. Kelley, logged out in new plus-fours, is favored to win the police department's first annual golf tournament which starts tomorrow on the Annandale links. The tournament will have the semblance of a blind bogey.

When members of his department, who hold that knickerbockers and "not the thing" for wielders of night sticks, were unable to suppress chuckles at seeing their leader so garbed, the Chief silenced these criticisms with a stern eye.

RACE ONE-TICKET AFFAIR

HOLLISTER, April 9. (AP)—J. R. Pendergrass was re-elected Mayor of Hollister today without opposition. J. Reilly was re-elected Councilman and Howard O'Brien again was chosen City Clerk. A. R. Hubbell replaced Alvin D. Ehl as Councilman.

MADDOO SINGS WALSH'S PRAISE

Calls Him One of Strongest
Wilson Supporters

Cites Montanan's Connection
With Important Bills

Regrets Inability to Stump
for Him in California

WASHINGTON, April 9. (AP)—Describing Senator Walsh of Montana as "one of the strongest supporters of President Wilson's administration," William G. Maddoo, a leading lawyer to a party colleague in California, has expressed the view that "there is no Democrat in public life today whose achievements entitle him to greater honors at the hands of his party."

"With Walsh in the White House," he declared, "a just man, an able man, a courageous man, an intellectual man, a great man and a sober man will lead the people of the United States into a new era of prosperity and law obedience. Fundamental Democratic principles will operate again for the benefit of all classes and all creeds and all races, and the best traditions of Jefferson, Jackson, Cleveland and Wilson will find new expression and new power."

CITES RECORD WITH WILSON

These statements and others, all highly complimentary to the Montana Senator, who recently entered the contest for the Democratic Presidential nomination with the support of Maddoo and many of the following in 1924, are contained in a letter sent by the former Treasury Secretary last Friday to John B. Elliott of Los Angeles and made public today.

Mr. Maddoo said if he were not detained here by his legal business, he would go to California for some speeches in Walsh's behalf before the May 1 primary in which the Senator is entered against Gov. Smith of New York and Senator Reed of Missouri. Maddoo heads the Walsh state of delegates. Elliott is one of the California Democrats who are taking a leading part in Walsh's behalf in the primary fight.

Strengthening the support he said Mr. Walsh had given Woodrow Wilson, Mr. Maddoo, a son-in-law of the war President, declared that "with almost every consensus and important measure of the Wilson administration, Walsh is identified." One measure after another was listed as he recalled how the Montanan had worked for enactment of the Federal Reserve Act, the Farm Loan Act, the good-roads law, the War-risk Insurance Act and other legislative milestones of the Wilson administration.

CALLS WALSH SOBER

Maddoo said it was Walsh "who obtained exemption of arms and labor organizations from the unjust provisions of the Sherman Antitrust Act," pictured him as a champion of the rights of women and pointed to his fight to have Louis D. Brandeis confirmed as an Associate Justice of the Supreme Court "when President Wilson, as proof of his tolerance, named this great Jew for one of the highest positions in the land."

At no time in his letter did Mr. Maddoo refer directly to Gov. Smith or to Senator Theodore W. Burton of New Jersey, who is favored from Woodrow Wilson in his stand on certain policies.

Bringing up the question of prohibition, Maddoo said, Walsh's management of the western campaign that gave Woodrow Wilson his second term as President.

"Walsh is dry and Walsh is sober. He practices what he preaches. He is no hypocrite. He indulges in no cant and his life is a daily vindication of his high principles and virtues. If he were elected President of the United States he would demonstrate the Eighteenth Amendment can be enforced because he would enforce it. He would neither nullify the Constitution, nor submit to nullificationists."

"The salutary influence of the vigorous administration he would give to the country would have an immeasurably beneficial effect in the suppression of crime and in the restoration of that respect for law which is vital to the perpetuity of Democratic institutions."

The former cabinet officer referred to Senator Walsh as "the malleable tool of corruption in government" through whose efforts, he declared, oil reserves, "worth perhaps \$1,000,000,000," had been restored to the people.

In the course of his communication, Mr. Maddoo quoted two letters from Woodrow Wilson to show the high regard of the late President for the Montana Senator.

Maddoo said that "we in California know it. Walsh's management of the western campaign that gave Woodrow Wilson his second term as President."

UTAH REPORTED SOLID FOR SMITH

SALT LAKE CITY, April 9. (AP)—The Utah State Democratic convention, completed its work late today without formally expressing a choice for the party's Presidential nomination, but supporters of Al Smith asserted that the sixteen delegates chosen to represent the State at Houston are virtually solid for the New York Governor.

James H. Moyle of Salt Lake City was re-elected national committeeman and Mrs. Ines Knight Allen of Provo was elected national committeewoman succeeding Mrs. Weston Vernon of Logan.

The convention postponed the formation of a platform until next fall, the resolution committee deciding that with only State issues involved it could be dealt with better at a later date.

No hint of dissension was apparent at any time, and neither avowed support nor opposition to Smith's candidacy revealed itself.

BRINE OFFER TO JERSEY DELEGATES DENIED

NEW YORK, April 9. (Exclusive)—Mayor Frank Hague of Jersey City, vice-chairman of the Democratic National Committee, denied today the truth of a story in the Newark Evening News that New Jersey delegates to the Democratic National Convention had been promised expenses to Houston if they would pledge themselves to vote for the nomination of Gov. Smith for President. According to the story, the asserted promise was made at a luncheon of the prospective New Jersey delegates at the Biltmore Hotel here recently.

The cost of sending the delegation to Houston is estimated at \$75,000.

The BUSINESS HOME OF DISTINGUISHED TENANTS

You will find in the Directory of the Western Pacific Building, the names of old-established business firms, among the leaders in their fields of business.

With Los Angeles' finest office buildings to select from, they have chosen the Western Pacific Building because it most suitably filled all of their requirements—of location, prestige, light and air, service, and moderate rentals.

The Western Pacific Building is adjacent to, but just outside the zone of heavy traffic congestion. Quick access to all main automobile arteries. 60% of yellow carlines, and Hollywood and west coast beach cars, pass within one block. Parking stations with low rates. Five high-speed elevators. Thorough janitor service each night.

Safe Deposit Vaults right in the building. Open from 8:30 A. M. to 5:30 P. M. Saturdays, from 8:30 to 12 Noon.

Because of smaller investment in building site and elimination of superfluous ornament, tenants are assured better service and more moderate rentals in this building of commanding dignity and prestige.

Partitions are now being installed for responsible firms desiring special layouts of 3000 feet or more. Attractive 2 and 3 room suites. Come in today, while choice space is available. Call have your secretary write for booklet showing floor plans.

NOTAS TELEGRAFICAS

Subkoff Rumbo a Rumania

LONDRES, 9 de abril.—Un telegrama al Daily Mail procedente de Bruselas, dice que el joven Alejandro Subkoff, cubano del ex-emperador de Alemania, ha marchado a Rumania, por ser el único lugar donde, según parece, le brinden franca hospitalidad. El periódico de Leipzig, "Neues", dice que pasaron unas cuantas horas juntos él y su esposa, el viernes. Estaban presentes su madre y una señora Nyssens. Las damas citadas cruzaron la frontera por Tula. La princesa lo abrazó con mucho cariño y le hizo presente de un nuevo de Paque que había traído de Bonn. Declaró la princesa que había escrito a la gran Duquesa de Luxemburgo, preguntándole si ella y su marido podían ir a vivir en el castillo.

Terrible Impresión de un Fobro

MADRID, 9 de abril.—C. O. Fuller, de Windsor, fue llamado con urgencia para atender a una mujer que había sido herida por un tren de pasajeros de la línea Nordeste, anoche. Cuando el pobre doctor llegó a socorrer a la infortunada mujer, ya ésta era cadáver. Esto en la vida de un médico, aunque pensó, no es nada de extraordinario, pero sí que la dama herida a quien el fuera a atender, en cumplimiento de su deber, era su propia esposa.

Le Señora Quisón en Vías de

Reestablecimiento

PHILADELPHIA, 9 de abril.—La señora de Manuel L. Quisón, Presidenta del Senado de las Islas Filipinas, está convaleciendo en el hospital de la Universidad de Pennsylvania, después de haber sido sometida a una operación de muy felices resultados. La señora de Quisón se enfermó cuando ella y su esposo se hallaban en Monrovia, California, donde el propio Senor Quisón estaba precisamente convaleciendo de una larga y penosa enfermedad. La señora fue traída aquí por el doctor Antonio Simon, médico personal de su esposo, y después de haberse celebrado una consulta de médicos se decidió la operación. Se espera que pueda abandonar el hospital dentro de unas dos semanas.

El Papa Sorprendió Gratamente a

unos Peregrinos Alemanes

ROMA, 9 de abril.—El Papa Pío XI sorprendió gratamente a un grupo de 160 peregrinos alemanes, dirigiéndose a la palabra en su propio idioma. Manifestó que se ale-

graba del hecho de estar allí representados todas las comarcas del Reich germano. Al impartirles la bendición, el Papa declaró que bendecía especialmente a los maestros de escuela a causa de su sagrada e importantísima misión y, por este motivo una bendición ad-hoc para todos los maestros de escuela del reino. Los peregrinos cantaron después un himno religioso en alemán.

Mujer Británica Ganadora en Una

Carrera por el Aire

MADRID (Inglaterra) 9 de abril. La señorita Winifred Spencer, una inglesa ampliamente conocida, ganó la carrera de obstáculos de Suffolk, preparada para estudiantes ligeros, por haberla hecho veinte segundos antes de su rival del sexo contrario, que quedó en segundo lugar. Ella fue la única mujer que tomó parte en el concurso, que consistió en una carrera de poco más de veinte millas en forma de triángulo. Pilotaba un aeroplano marca Moth.

En la Guerra Países Marieron 37

Millones de Almas

PARIS, 9 de abril.—Una de las comisiones de la Liga de las Naciones ha publicado un folleto en el que se pone de manifiesto que la famosa guerra mundial pasada costó unos 37,000,000 de vidas humanas, las de los soldados y de los civiles. Los presupuestos de guerra de todas las naciones del orbe para los años 1928 y 1927 llegaron solo a la cantidad de \$1,000,000,000, es decir 1-10 parte de los gastos de la terrible guerra. Todas estas cifras estadísticas fueron tomadas de fuentes oficiales, proporcionadas por todos los ex-beligerantes.

NOTAS LOCALES

Desena Nueva Pavimentación

James C. Orsler y otros propietarios pidieron ayer al Ayuntamiento que ordene la pavimentación de avenida de Santa Rosa, en el valle de San Fernando, desde la calle de Devonshire hasta la de Marilla. El camino propuesto tendrá veinte pies de anchura, y estará hecho de concreto de ocho pulgadas de espesor.

Elección de Mesa Directiva de los

Hijos de la Revolución

En un almuerzo que tendrá lugar hoy al mediodía el capítulo de esta ciudad, de la asociación de los Hijos de la Revolución, elegirá los funcionarios de su mesa directiva para este año. El magistrado Bishop será el principal orador.

Charles Infantiles Para Chiquillos

de Escuela

XIX
Al fin alguien dijo al general que un tipo de aspecto estrambótico deseaba verla. (At last some one told the general that a queer looking fellow wanted to see him). "Que cosa," dijo el general (Let him come up, said the general). El extraño hombrecito entró y contó al general todas las tribulaciones de la pobre lavandera. (The odd little man came in. He told the general all about the trouble of the poor washer-woman). El general mandó que los soldados se permanecieran más tiempo en la casa de esta. (The general sent word that the soldiers must not stay any longer at her home).

Hunt Again to Visit Capital

PHOENIX, April 9. (AP)—At a meeting of the Arizona Colorado River Commission today Gov. Hunt announced that he soon will return to Washington to lead Arizona's forces in fighting the Swing-Johnson Boulder Canyon dam bill.

His decision, he added, was influenced by the telegraphed request of Senator Ashurst that he prepare to return on short notice.

AMERICAN WOMAN WHO HELPED FRENCH DIES

HOLYOKE (Mass.) April 9. (AP)—Miss Belle Skinner of Holyoke, known as the "fairy godmother of the village of Hatten-Chatel" as a result of her work in rebuilding that French community into a model village after the war, died in Paris early today. She was about 60 years of age. She received a decoration from the French government in 1921 and on September 13, 1923, was made a member of the Legion of Honor in recognition of her reconstruction work.

MINE DAMAGE AWARDED

TUCSON (Ariz.) April 9. (Exclusive)—Judgment of \$2000 damages has been awarded by a jury in the District Court to G. C. Julian of Los Angeles, J. W. Bandhauer and Julian Meyer of Globe. Previously, Judge Faires of Globe, temporarily on the local bench, had declared Julian in default, with no representation in court when the case was called. Bandhauer appeared and was a witness for both plaintiff and himself. From main question before the court was construction of a contract that had been entered into for development and purchase of a mine in the desert, between Tucson and Ajo. Ballas asked \$2000 damages, following abandonment of the property and the moving of the surface equipment, most of it understood to have been hauled to the Elmer H. Ballas mine, near Wickenburg. For a time, the Ballas option, with the property retained by the Ballas, had prominent place in Julian's publicity. Ballas, on resuming possession, asserted that much machinery had been removed illegally and that other damage had been done him by the Julian operations. The mine has been a producer of silver and lead ores.

NEW SERVICE ASSURED

WASHINGTON, April 7. (AP)—Direct trunk-line passenger service for the city of Longview, Wash., was assured today by a decision of the Interstate Commerce Commission, allowing the Northern Pacific, Great Northern and Oregon and Washington railroads to render it.

"That Banker Sure Does Go Out of His Way to Help a Fellow Get Ahead"

This remark overheard the past week regarding one of the officers of the Seaboard National Bank warmed the hearer's feelings and gave him gratification that he was a stockholder of the institution.

The Board of Directors, composed of a number of California's wealthiest and most successful business men, determined in the very beginning that the Seaboard National Bank should not be excelled in earnest effort to better the financial condition of its clients, and all of its officers are chosen with this view paramount.

TO BE SURE

There is Grouse Santé Chasseur or crêpe Suzette or even good old-fashioned Yorkshire pudding—any delicacy madam might fancy—any home dish a traveler might relish. No matter the choice, our ships have it. There's a liner in our fleets for every preference. For the ultra smart there is the Majestic—luxurious, stately—yet with the speed necessary

to fit one's most exacting engagements. Those who prefer the quiet comfort of the Cabin liner find the Adriatic—the largest of kind afloat. And, for the artists, students and those who travel there are our Third Cabin accommodations—and four great decks devoted exclusively to the class.

PRESIDENT RE-ELECTED

PHOENIX, April 9. (Exclusive)—F. A. Reid remains as president of the Salt River Valley Water Users' Association, re-elected by a large majority. There was no change in the constitution of the governing body of the association, which controls about 250,000 acres irrigated by the Reclamation Service Salt River project, around Phoenix and Mesa. General management is in the hands of C. C. Cragin, who designed and built the Horne Mesa and Mormon Flat dams, by means of which the association obtains large revenues from the sale of hydro-electric current. Also indicated is approval of plans for construction of still another river dam, through which will come full electrification of the valley farms.

GRAHAM BROTHERS TRUCKS

Sold and Serviced by
Dodge Brothers
Dealers Everywhere

Built by
Truck Division of
Dodge Brothers, Inc.

Here are four of the Fageol line...trucks whose name and fame have won the triumph of FAGEOL'S DAY!

The Fageol Flyer Six:
Light, but a truck all the way. It is built down from heavy truck design...not up from pleasure car specifications.

The Fageol Redman:
Here's a 6-cylinder 40-horsepower truck for 2½ ton loads...and more. America's first truck with Westinghouse Vacuum Brakes as standard equipment.

The Fageol 370:
A powerful, sturdy 6-cylinder truck designed to meet medium-heavy duty requirements.

The Fageol 10-66:
Giant of the highways, this 10-ton, four-wheel drive truck is master of any load. America's only truck with Westinghouse Air Brakes, operating steel shoes, as standard equipment.

There are other Fageol models...all powered by Waukesha motors with the Ricardo head.

FAGEOL

ON DISTANT ROADS that mark the farthest reach of progress...on great highways where the blood of Western commerce flows...on city streets that

bear the wear of countless pounding wheels...an old and honored name has come into its own. The name is Fageol!

Today the whole world knows that name. Today the truck buyer looks on it with a faith justified by Fageol's 11 years of uncompromised quality. *Today is Fageol's day!*

In Sales: Year upon year, Fageol popularity has mounted. Today Fageol truck sales are exceeding even the great record of 1927, when over 100% more Fageol trucks were purchased than in 1926!

In Performance: Match any Fageol truck against any other truck of equal...and often higher...rating, in any test you choose!

In Endurance: The first Fageol truck made eleven years ago...is still in active service...and the second...and the third.

In Economy: The Fageol buyer pays a fair price for quality,

for Fageol trucks are built to an ideal comparable to that which exists in the manufacture of fine motor cars. He is repaid many times, not only in performance that borders on the sensational, and in dollar for dollar endurance, but in amazingly low cost of operation and upkeep.

In Appearance: Today truck operators are advertised by their equipment. Appearance, therefore, has become a vital consideration in truck purchasing. Fageol engineering has interpreted the power and stamina of Fageol trucks in terms of honest beauty. In the very lines of every Fageol there is a thrill of potential accomplishment. And added to this is *color*. Each Fageol model wears a brilliant, distinctive finish. As Fageol has pioneered in mechanical developments, Fageol now takes the lead in sheer good looks.

YES, an old and honored name has come into its own. Again, that name is FAGEOL...and *this is Fageol's day!* Let Fageol trucks mean to *you* the same profit and prestige that please an ever-increasing number of truck operators.

THERE IS A FAGEOL TRUCK FOR EVERY JOB!

TONE ON COPPER MARKET BETTER

Revival of Foreign Demand
Stiffens PricesConditions Thought to Favor
Further AdvanceImprovement in Lead Shown;
Zinc Unchanged

By CHARLES F. WILLIS.
Editor Mining Journal, Phoenix.

The copper-buying movement took its second wind last week when, after three weeks of good buying and one dull week, a spurt came from foreign sources which was reflected in the domestic market and caused an unusual flurry. The result is that copper now stands at 14 1/2 c. delivery points and close to 14 c. f.o.b. New York. Lead has also been active with the contract price advancing from 6 to 6 1/2 and zinc has been quiet but with a slightly stronger price, 23 1/2.

The least market has been sufficiently active to cause an advance in price generally. For fully a week before the advance came, there was some modest commanding of premium over the contract figure. Practically all classes of lead buyers were in the market, and the number of sales and size of the lots.

ZINC OUTPUT UP
The world production of zinc during February totaled 122,335 tons, which is an average of 4215 tons daily, a new record. During January the daily average was 4109 tons. There has been a steady increase in zinc production since July, 1927, and the average daily rate during 1927 was 3919 tons, or about 300 tons less than the present rate.

The increase seems to be fairly general and not confined to any one group of countries. Of the 122,335 tons of zinc produced in February, the United States contributed 50,043 tons, Belgium 18,545 tons, Poland 12,199 tons, France 8,643 tons and Germany 6,233 tons.

The statistical data on copper for March will be eagerly anticipated as some high totals are expected which will possibly influence the whole situation. It is generally believed that the total of export and domestic deliveries will exceed 120,000 tons and that there will be a large drop in the surplus stocks.

UPTURN FORECAST
The buying of copper has been unusually heavy for delivery during the last three months, and it looks as though the consumers were now desirous of protecting themselves against a price advance which seems inevitable.

The producers played wisely in not advancing the price during the last buying movement and not making any advance until the buying was seemed to be about completed. The sellers have now sold at the metal they care to sell at the 14 1/2 price and are strongly holding for the 14.

The copper producers have been very successful in maintaining a stable copper market during the past few weeks and in having carried forward their program in view of the continued dullness, and their success will undoubtedly bring the buyers into line in taking care of their requirements ahead of time and be sure of delivery.

EXPORTS PRICE HELD
Although there has been an advance in the domestic copper price there has been no advance in the export price as yet, that price remaining at 14 1/2 cents. The volume of buying abroad and the fact that very little copper remains in European warehouses indicates that a foreign advance of an 1/4-cent may be expected.

In spite of the fact that Germany is not expected to take as much copper this year as last, the start for 1928 has been good, with 18,385 tons, monthly average imports of 17,704 tons last year and 18,109 tons monthly during 1928. Great Britain has been importing 18,933 tons net monthly this year as against 18,827 tons during 1927 and 18,827 tons during 1926.

Germany is also away up in lead, having net imports this year of 17,704 tons as against 11,772 tons last year and 6,940 during 1926. Great Britain is off this year with 18,385 tons as against 22,828 tons monthly net during 1927 and 21,600 tons during 1926.

The copper situation can be regarded as materially improved and traveling forward to further improvement rapidly. The lead market is better but with no sign of any great advance and the zinc

LOS ANGELES EXCHANGE

Electrical Products, Soaring 24 1-4 Points, Tops List
of New Record Prices

Electrical Products, jumping 24 1/4 points to a new record high at 145, featured the resumption of trading on the Los Angeles Stock Exchange yesterday. Several new tops were registered throughout the various divisions with the activity centered mainly in the oil and unlisted divisions.

Rio Grande led the oil group with a notable gain in the bank list with an advance of 2 3/4 points to a new high of 28 1/2. Merchants' National moved up 2 to 17 1/2. Security Trust and Savings swung back 11 points over the week-end to close up to 238. Bank of Italy gained 1/2 to 28 1/2 and Bancitalia lost 1 to 190.

Caterpillar Tractor was among those to move into new high territory with an advance of 1 1/4 points to 72 3/4. Pacific Indemnity reached a new high at 163, up 1. Security Bank and Trust Company advanced 11 points to a new peak at 268. Union Bank and Trust Company of Los Angeles made the most

NEW YORK CURB STOCKS

NEW YORK, April 9. (AP)—Trading on the curb market was heavy and broad today, with scores of issues reaching new high levels. Total sales exceeded 800,000 shares and nearly \$5,000,000 worth of bonds changed hands. Trading was so heavy that the ticker was nearly fifteen minutes behind the market at the close. Industrial issues led the advance. Utilities were strong and oil turned buoyant on announcement of decreased production.

Deere & Co. recorded the widest gain, advancing 3 1/2 points net to a new high at 258 1/2. Nickel & Shepard also touched a new high at 48 3/4, with a net gain of about 5 points. Niles Cement Pond was under pressure.

Railroad issues reflected the strength of rails on the "big board." Pittsburgh and Lake Erie and New Orleans and Great Northern reached new peaks and Alabama Great Southern gained a full point. Columbia Graphophone advanced 7 more points to another new peak. Mengel Co. International Shoe, Bohm-Aluminum, Celotex, Debenham Securities, Sparks Withington, United Shoe Machinery and Western Auto Supply also were among issues to reach new tops for the year.

Bandit and Canadian Marconi were in demand, but were held to comparatively small gains. The utilities advanced as a group, many to new peaks. There were a few weak spots, such as Lone Star Gas, which sagged 1 point. National Public Service and Southwestern Power and Light.

Vacuum Oil moved up nearly 2 points to a new top at 15 1/2, and Lion Oil to a new high at 35 3/4 on buying by western interests. Penn Mer Fuel extended its gain 1 more point, while Gulf advanced more than 2 points and Humble about half as much. The pipe lines were affected adversely by announcement of decreased production. Northern selling off 3 1/2 points and Illinois 1 1/2. Prairie, however, recovered from its recent slump and gained a full point.

The closing price is omitted when same as the day before, and both low and close when same as the day before.

\$1,850,000 Insurance Exchange Building

BOSTON, MASS.

First Mortgage Leasehold 6 1/2 % Sinking Fund Gold Bonds
(To be issued by Insurance Building Corporation)

To be dated February 1, 1928.

To mature February 1, 1943

Coupon bonds in denominations of \$1,000 and \$500 registerable as to principal only. Principal and semi-annual interest (February 1 and August 1) payable at Old Colony Trust Company of Boston, Mass., Trustee. Interest also payable at The Security Savings Bank & Trust Company, Toledo, Ohio. Interest payable without deduction for Federal Income Taxes now or hereafter deductible at the source not in excess of 2%. The Company will refund upon proper application in accordance with the provisions of the Trust Deed any Personal Property tax not in excess of five mills levied by any state upon holders resident in such state on account of ownership of these bonds and the Massachusetts Income Tax up to 6% on the interest received on holders resident in Massachusetts. Redeemable at the option of the Company in whole or in part by lot on any interest payment date on at least thirty days' published notice at 108 and accrued interest.

The following information is from a letter to Otis & Co. from Mr. R. M. Barnitt, President of Insurance Building Corporation, and from other official sources:

SECURITY

This issue of bonds will be the direct obligation of Insurance Building Corporation, organized under the laws of the Commonwealth of Massachusetts, and will be secured, in the opinion of counsel, by a first closed mortgage on the Company's leasehold estate in approximately 26,760 square feet of land, representing an entire city block in the City of Boston, Mass., and in the Insurance Exchange Building located thereon, subject to the lessor's lien to secure the performance of the lease's obligations under the lease and to the rights of tenants of the building under their existing leases and building and zoning laws applicable. The land has frontages of about 216 ft. on Broad Street, 193 ft. on Milk Street, 160 ft. on India Street and 106 ft. on Central Street. The net ground rent reserved in this lease (which is for a period of 99 years from February 1, 1928) is 5 1/2 % of the present appraised value of the land.

The land covered by the lease has been appraised as of October 26, 1927, by Mr. J. Sumner Draper at \$1,900,000 and the building at \$3,100,000.

The Deed of Trust securing this issue will require that adequate fire insurance be carried on the building at all times.

This issue of Bonds is followed by \$1,500,000 par value of outstanding Preferred Stock and 15,000 shares of outstanding Common Stock without par value.

THE BUILDING AND LOCATION

The Insurance Exchange Building is an eleven-story and basement structure of steel frame, Indiana limestone, granite and marble fireproof construction. It was completed and ready for occupancy January 1, 1924. It contains 3,597,527 cubic feet with 275,000 square feet of floor space. The average rentable area is 22,250 square feet per floor. Frontages on four streets and a light court afford unobstructed daylight.

Boston is an important insurance center and the Insurance Exchange Building is located in the insurance and financial district, only one

block from State Street, the leading financial thoroughfare, and one block from Liberty Square, the center of the insurance district.

The building is now 98 % rented and agreements have been entered into to lease the remaining space. The tenants include many of the leading insurance companies and the New England Insurance Exchange, as well as other types of business organizations.

EARNINGS

The net earnings of Insurance Building Corporation, for the year ended December 31, 1927, applicable to the interest on these bonds, after eliminating interest (amounting to \$200,750.07) on indebtedness to be liquidated out of this financing, as reported by Messrs. Peat, Marwick, Mitchell & Co., Accountants and Auditors, and after deducting \$104,500 ground rental, and the Trustee's fees and expenses under the above mentioned 99-year lease, but before deduction of rentals paid on assumed leases (\$57,808.44) and before depreciation and Federal Taxes, were \$204,986.62 or 1.70 times maximum annual interest requirements of this issue of bonds. Rentals under these assumed leases (the last of which expires April 1, 1932) are payable in varying installments over the unexpired terms of such leases. The aggregate of these rentals from December 31, 1927, amounts to \$101,162.94. Gross rental income for the year 1928, based on leases in effect December 31, 1927, is \$511,561 as compared with income from this source of \$482,799 for the year 1927.

SINKING FUND

The Deed of Trust securing this issue will provide for Sinking Fund payments estimated to be sufficient to retire over 55 % of this issue prior to maturity.

PURPOSE OF ISSUE

The proceeds of this issue of bonds, together with other funds, will be used to retire \$2,761,000 of the 6 % Serial Gold Bonds of Insurance Building Corporation, originally issued in 1922 in the amount of \$3,000,000, and to retire current indebtedness.

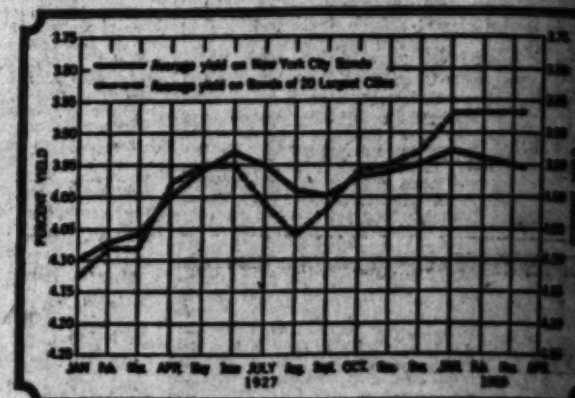

We offer these bonds when, as and if issued and accepted by us and subject to the approval of counsel, Messrs. Putnam, Bell, Dutch & Santry, of Boston, for the Corporation, and Messrs. Bulkeley, Hauxhurst, Jamieson & Sharp, of Cleveland, and Messrs. Ropes, Gray, Boyden & Perkins, of Boston, for the Bankers. It is expected that delivery will be made in the form of Trustee's Interim Receipts on or about April 12, 1928.

Prices: 100 and accrued interest to yield 6 1/4 %

OTIS & CO.

Statistics and statements given above, while not guaranteed, are obtained from sources we consider to be reliable.

Yields to Investors in Long Term New York City Bonds are HIGHER than the average yield on similar bonds of the twenty Largest American Cities.

NEW YORK CITY is entitled to a credit rating fully as high as that enjoyed by any other American city, yet her long term bonds are selling today at prices which give investors a substantially higher yield than the average for cities of the first class. New York City bonds are widely held and enjoy a ready market among institutions and private investors everywhere. Their security rests upon the full faith, credit and taxing power of the largest city in the Western Hemisphere. The present temporary disparity in yields opens a real investment opportunity.

New Issue

This stock has been sold privately.

\$2,500,000

Peoples Drug Stores, Incorporated

(A Maryland Corporation)

6 1/2 % Convertible Preferred Stock

Each share convertible into 1 1/2 shares of Common Stock at any time on or before March 31, 1933

Mr. M. G. Gibbs, President of the Company, recommends his stock to be sold as follows:

BUSINESS AND HISTORY: Peoples Drug Stores, Incorporated, organized under the laws of Maryland, has acquired the business and properties, subject to liabilities, of the Delaware corporation of the same name, and has also acquired the entire outstanding stock of The Bennett Drug Company, and The Day Drug Company, operating the largest retail drug chain in Akron, Ohio, with 21 stores.

The Company will operate directly or through wholly owned subsidiaries a chain of 75 retail drug stores located in Washington, D. C., Ohio, Pennsylvania, Maryland, Virginia and West Virginia. In number of stores operated and in volume of sales, it is the fourth largest chain of drug stores in the United States.

The business was founded in 1908 in Washington, D. C. with one store and a capital of \$50,000. The second store was opened in 1912 and since that time the growth of the business has been steady. Additional stores have been opened or acquired at a rate consistent with conservative management.

SALES AND EARNINGS: The accounts of Peoples Drug Stores, Incorporated (Delaware) have been audited by Messrs. Murphy, Lantz & Quinn, and the accounts of The Day Drug Company and The Bennett Drug Company have been audited by Messrs. Haskins & Sells. Based upon these audits, consolidated net sales and net earnings after all charges, including depreciation and taxes, but exclusive of certain non-recurring charges averaging \$10,000 per year for the period, determined by our management, as certified by Messrs. Haskins & Sells, are as follows:

Year Ended December 31	Net Sales	Net Earnings As Above	Times Preferred Stock Dividend	Per Share Common Stock
1925	\$ 7,290,365	\$305,714	3.11	\$1.50
1926	8,370,803	516,010	3.17	1.50
1927	10,179,570	589,235	3.62	1.50

Consolidated net earnings for 1927, as stated above, were \$589,235, equivalent to 3.62 times annual dividend requirements on the \$2,500,000 Preferred Stock outstanding, and after provision for such dividend requirements to \$3.49 per share on the 122,230 shares of no par value Common Stock outstanding. Such net profits for the past three years average \$596,993 per annum, equivalent to 3.30 times annual dividend requirements on the Preferred Stock and, after provision for such requirements, to \$3.06 per share of Common Stock.

PURPOSE OF ISSUE: Part of the proceeds of the sale of this Preferred Stock has been used to provide funds for the redemption of the 8 % Preferred Stock of Peoples Drug Stores, Incorporated, (Delaware) and the balance will provide funds for expansion purposes, and for additional working capital. No part of the proceeds has been used for the acquisition of The Day Drug Company or The Bennett Drug Company.

CONVERSION PRIVILEGE: Each share of this Convertible Preferred Stock is convertible into Common Stock of the Company at any time on or before March 31, 1933, in the ratio of 1 1/2 shares of Common Stock for each share of Preferred Stock, as more fully provided in the Certificate of Incorporation.

MANAGEMENT: The writer, who founded the business and has been its active head since its incorporation, will be President of the new Company. An efficient and modern retail merchandising organization has been built up during the twenty years' operation of the business, centered around a group of executives who are experienced in every phase of chain drug store operation.

We offer this stock subject to allotment and prior sale and subject to the approval of our Counsel.

Price \$107.50 per share and accrued dividend

BANK OF ITALY NATIONAL TRUST & SAVINGS ASSOCIATION, LOS ANGELES, Registrar CALIFORNIA TRUST COMPANY, LOS ANGELES, Transfer Agent

Mr. A. V. Wainwright, President of the Company, summarizes his letter to us as follows:

Business: California Consumers Company was incorporated under the laws of Delaware in 1928 to acquire and operate, either directly or through subsidiaries, the businesses of the following successful and well established companies: Los Angeles Ice & Cold Storage Co., Pasadena Ice Co., Citizens Independent Ice & Cold Storage Co., Globe Ice Cream Co. and Beverly-Globe Ice Co.

Such companies are engaged in the cold storage, ice manufacturing, refrigeration, ice cream and distilled water businesses, owning and operating nine ice manufacturing plants, four cold storage plants, one distilled water plant and one ice cream plant. These properties have a daily ice making capacity of 1097 tons, total ice storage capacity of 39,700 tons, yearly ice cream making capacity of 1,000,000 gallons, cold storage capacity of 2,418,000 cubic feet, distilling and bottling capacity of 70,000 gallons of distilled water daily. Distilled water is distributed under the well known name of "Puritas" to over 60,000 customers, making that unit one of the largest distributors of distilled water in the country. Ice cream that has won recognition for its high quality is sold under the trade name of "Globe Ice Cream."

Net earnings by departments are as follows: Water, 43.2%; ice, 33.6%; refrigeration, 9.5%; ice cream, 10.8%; cold storage, 6.9%.

The ice industry is ninth in size among the industries of the United States and during the last few years has experienced a remarkable growth. Under modern living conditions and methods of transportation and storage of perishable goods, the manufacture of ice has become an essential business. Being conducted on a cash basis, with low inventory risks, small labor costs and rapid turnover of products, it has many of the desirable elements of the public utility business.

The territory served has a population of over 1,750,000 and includes the cities of Los Angeles, Beverly Hills, Santa Monica, Pasadena, Pomona, Alhambra and numerous other municipalities. The plants and warehouses are well located, modern, fully equipped and have capacity for a greatly increased business. The business is a stable industry and deals in commodities or services necessary and essential to the large population served.

Earnings: Consolidated earnings for the year ended December 31, 1927, as reported by Messrs. Barrow, Wade, Guthrie & Co., certified public accountants, after adjustment for non-recurring charges:

Table with 2 columns: Item and Amount. Items include Gross Earnings, Operating Expenses, Other Income, Net Earnings, Annual Interest on Bonds, Depreciation and Federal Taxes, Balance, and Annual Dividend Requirements.

Above balance is equivalent to 2.91 times the annual dividend requirements on this issue of Preferred Stock.

Valuation and Equity: The real estate, plants and equipment of California Consumers Company and its subsidiaries were recently appraised by Sanderson & Porter at a sound depreciated value of \$6,967,446, including land values of \$2,647,350. The Company will have ample working capital in the amount of \$676,223, which together with investments and miscellaneous assets of \$1,757,589, makes total consolidated net assets of \$7,819,238 without any allowance for good will, franchise rights or other intangibles. After deducting the total \$3,750,000 bonds to be presently outstanding, the equity available for these preferred shares, upon completion of the present financing, will amount to more than \$271 per share.

Capitalization: After giving effect to present financing: First Mortgage and First Lien 20-Year 6% Gold Bonds, Series A \$3,750,000 Preferred Stock (no par—this issue) 15,000 shares Common Stock (no par) 15,000 shares

Purpose of Issue: The proceeds of shares of stock including this issue of preferred and bonds will be used to acquire properties, subsidiary companies, retire or acquire all outstanding funded indebtedness and for other corporate purposes.

Management: The Company will be under the supervision and management of the United States Engineering Corporation, which is composed of an experienced and very well known personnel who have successfully demonstrated their ability in the management and development of the National Public Service Corporation, Western United Corporation and the Inland Power & Light Corporation.

This Preferred Stock is offered for delivery when, as and if issued and received by us subject to the approval of legal proceedings by Messrs. O'Melveny, Myer & Myers of Los Angeles and Messrs. Jackson & Brown of New York and subject to the approval of the Commissioner of Corporations of the State of California and such changes as he may require. Engineering examinations and valuations by Sanderson & Porter, Audits by Messrs. Barrow, Wade, Guthrie & Co. Other examinations by Van Rensselaer H. Greene and United States Engineering Corporation. Temporary stock certificates will be deliverable in the first instance.

PRICE ADVANCE

(Continued from Fourteenth Page)

Jumped nearly 6 points to a new high at 181 and then slipped back to 180. Loblolly Valley, Reading, Baltimore and Ohio, Lackawanna, Delaware and Hudson and Western Maryland common and second preferred also reached new high ground. Wahash was heavy, reaching 3 1/2 points to 78 and then snapping back to 75.

Call money renewed at 4 1/4 per cent and then advanced to 5 1/4. Time money and commercial paper rates were unchanged.

Foreign exchange trading was quiet because of the widespread observance of the eastern Monday holiday in European capitals. Sterling cables ruled firm around \$4.85 1/4 and other European rates showed little change.

Stronger Tone
Rules Trading
on Grain Markets

CHICAGO, April 9. (Reuters)—Wheat trade in wheat was not large the market was firm, and the finish was at net gains of 1/8 to 1/4. Corn gained 1/8 to 1/4 on a report of heavy rain in the north and a decline in the south.

Low temperatures prevailed over the wheat market and the wheat market was not without any moisture of concern. Wheat was not without any moisture of concern. Wheat was not without any moisture of concern.

Continued reports from the Central wheat market were not without any moisture of concern. Wheat was not without any moisture of concern. Wheat was not without any moisture of concern.

A decrease of 2,500,000 bushels in the domestic wheat supply of corn, making the total 41,000,000 bushels against 43,500,000 bushels last year, was a distinct surprise to the trade, and with a lack of pressure an advance was easily attained.

Complaints that low temperatures had caused some damage to the newly seeded corn crop, combined with a higher level of prices. Cash interests were on the buying side.

Reports with northwestern connections were moderate sellers of rice and the market showed an easy undertone as compared with wheat. Local spot basis was steady to 1/8 lower with the poor kinds showing a decline. Buenos Aires showed a decline to 1/8 lower with the poor kinds showing a decline.

LOS ANGELES (Loce Ahng hayl ah)
 MEMBER OF THE ASSOCIATED PRESS
 The Associated Press is exclusively entitled to the use for republication of this paper and also to the use of the name of the Associated Press in connection with the publication of this paper.

The Times aims at all times to be accurate in every published statement of fact. Readers who discover any important inaccuracy of statement will confer a favor by calling attention of the Editor, Department to the error.
 No employee of the Times is permitted to accept any gratuity, in money or its equivalent, from any individual, group or organization having news or business relations with the Times. The public should clearly understand that it is unnecessary to pay anybody anything to get news into the Times and that any Times employee who accepts "gifts" calculated to influence his or her work in this newspaper is thereby rendered subject to immediate discharge.

Bad lies, if they exist, should be repeated as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed.
 —Abraham Lincoln.

HOW TO CUT
 The debate upon tax reduction might readily be described as a series of cutting remarks.

AS BY FREIGHT
 Now they have fixed it so that the gas used for dirigibles may be sent by the carload. When they get around to supplying it by air mail the blimp business will be a snap.

SPEAKING OF SPEAKIES
 After nearly thirty years of effort in the evolution of talking films, Thomas A. Edison now says they are impractical. But they are mighty good talking points for movie advertisers, and are filling the theaters just the same.

THE FLYING MAIL
 If the rate for air mail is reduced to 5 cents an ounce it will be necessary to have more aircraft to handle the business. At present more flying mail originates in Los Angeles than any other city in America and most of it goes on a long journey.

SHOULD BE POPULAR
 Issuance of the reduced-sized paper currency has been postponed for nine months. The Treasury Department, in giving notice that the first issue will be of the denomination of \$1, says that the new bills will last longer than the old ones. That's the best news yet.

CONFUSION OF TONGUES
 Said that more than thirty parties are represented in the Polish Parliament. How can they ever agree upon any legislation? It is hard enough to get thirty men to harmonize when they are in a brass band. What if they all wished to play a different tune.

UNARMED
 Gardeners are now getting out their gopher gun traps. These are cunning contrivances that are placed in burrows and so arranged that the gopher inadvertently shoots himself. One would think that any self-respecting gopher would want to shoot himself after depositing a bed of beautiful flowering plants; but these rodents know no shame.

FLYING INTO SMOG
 When the visibility is low and aviators cannot see the earth they call it flying into smog. They may not know whether it is smoke or fog and so they have a word of their own to describe it and even a stranger would admit that the title is a bull's eye. Smog must also be that cloudy stuff which politicians throw off themselves to avoid being smoked out by others.

WHO IS SYLVIA?
 It may be all right for unwedded militant suffragettes to have babies, but Sylvia sounded a new note by advertising the incident in the papers. If there are any shackles to conventionality Sylvia takes pride in rendering them asunder as the village blacksmith would tear a string of beads. She respects neither tradition nor precedent. She could have a happy time spreading limburger cheese on the walls of Buckingham Palace.

ZOGU'S SCARE
 If you happened to be President of Albania and got sick you would be very likely to lose your job. President Zogu became ill the other day, and he and his friends were badly scared. First they took pains to conceal his illness, and then went to work so firmly to intrench and guard the government houses that when the revolutionists heard about the President's condition they had no chance to take advantage of it. It takes a forsy executive to hold his office in Albania.

LADIES IN THE SKY
 One titled lady is flying from London to British South Africa all by her lonesome and now another has completed a solo flight from Capetown to Cairo—the full length of the Dark Continent. She covered some 8000 miles in the doing and made the journey without mishap or special adventure. Aviation solves the problem of vast spaces in new or unsettled lands. Two French flyers flew the 1000 miles across the Sahara Desert to Timbuctoo the other day in eleven hours. A camel caravan in making the same journey might consume four months. Put wings on humans and the embarrassments of distance disappear.

THE NEW CAR RATES
 Another experimental shift in the rates of the Pacific Electric Railroad is announced by the State Railroad Commission. It is announced as though it were a decrease, but even a casual analysis of the new fare set-up ordered by the commission indicates that it is more a readjustment than a cut and that the increases will to a large extent at least balance the reductions. Considerable experimenting will be required before it can be said that the new schedules are, as a whole, in the public interest.

The shortening and multiplication of zones will counteract most or all the saving there may be in placing local fares at 5 cents instead of 6, at least for the longer riders. In numerous instances the red cars will collect twice and in some cases three times the fare the Los Angeles Railway is permitted to charge for the same haul or for one of equal length. Why the Pacific Electric was given this additional revenue while the Los Angeles Railway, the financial condition of which is no better if as good as denied it, does not appear. The new order is presumably predicated on an enormous amount of technical data which the general public cannot be expected to understand, and perhaps the commission could not have made itself clearer in its reasoning. But the public has to pay the fares and is entitled to know as much about it as can be made intelligible.

The Railroad Commission seems to be obsessed with the idea that more people would desert their automobiles and ride on the street cars if street-car riding could be made to seem cheaper. But street car transportation is already cheap compared with that furnished by the motor-driven vehicles, and under present traffic conditions it is generally speaking, quite as speedy. The superiority of the automobile evidently is in comfort and convenience. If this is a correct analysis, railroads can attract traffic more easily by giving better service than they can by lowering their fares.

If statistics on the point were possible to procure—they could be had, of course, only at great expense and labor—it probably would be found that the total volume of travel by any given number of people in any given set of circumstances does not vary greatly in amount, and that whether they make these journeys by private vehicle or by common carrier depends upon quite other factors than relative cost. The so-called "Glendale experiment" leads the commission to the opposite conclusion, but it may be the statistics have been interpreted incorrectly and something else than reduced fares has led to the greater traffic. Few people nowadays go street-car riding merely to enjoy the ride.

The main cut in rates seems to be on lines where there is heavy travel and is in fares for the casual rider; the commuters have had their tickets raised in price, as have the travelers on lines not so much used. As a redistribution of the burden this may be defensible. But as a business proposition it does not seem fair treatment of steady customers whose patronage is the backbone of the railroad's income. So far as the commuters are concerned, or as likely to attract business to the lines that already have too little. If the commutation fares have been below the cost of service that is a reason for increasing them, but it must always be remembered that the amount of service required for commuters is a definite and predictable quantity and can thus be provided at minimum cost. It is not like a football or parade crowd, the size of which can be but poorly estimated in advance and which will vary with the weather. There are good business reasons why commutation fares should be low.

POWER BUREAU POLITICS
 Property owners who may have doubted that the Municipal Power Bureau is primarily a political bureau for the advancement of municipal ownership propaganda at the taxpayers' expense will doubt no longer if they read the official record of the Railroad Commission on the matter of reducing ornamental lighting rates in Los Angeles.

The Power Bureau through its political connections and alliances at the City Hall has a virtual monopoly of the ornamental lighting current and maintenance service at rates one-third higher than the Los Angeles Gas and Electric Corporation offered weeks ago to furnish the same service.

The Los Angeles property owners who pay more than \$1,000,000 a year in direct assessments for this service assumed, of course, that the Railroad Commission would gladly and quickly grant any applications to reduce utility rates, in which they showed that the Power Bureau, know the methods of the Power Bureau, whose political tentacles reach into the State machinery.

When the bureau was threatened with a loss of its monopoly of the ornamental lighting business a messenger was sent post-haste to San Francisco with an ultimatum that the bureau was not to be interfered with.

Whereupon the Railroad Commission granted four continuances in a row of the hearing on the application for a reduction in lighting rates. When the matter did finally come before the commission last week an observer attending the hearing might have concluded from the hostile treatment accorded the assessment payers that the application under consideration was one to extinguish all electric lights in the city instead of a request for equitable relief.

To those who have followed the methods of the Power Bureau since the tiny power plants were fastened like barnacles on the water department's Aqueduct in order to give some semblance of an excuse for creating a political machine, the State commission's apparent shortsightedness as a public servant, the Power Bureau possesses political influence which it does not hesitate to use.

LEE SIDE O' LA

DEAR LEE SIDE: Us film girls don't really ever get justice from the public. They most of us appreciate what lofty souls get for us really have of no-toriety or fine clothes that brings us to this game. It's just sheer love of beauty. Ah, beauty, beauty! Beauty is one of the prettiest things in the world, don't you think? And yet some folks are so unfeeling, so unsympathetic. Last night I held a wisecracker that beauty thrilled me to the bottom of my heart, and he answered that jazz thrilled him to the bottom of his sole.

It's sure discouraging to have to live in the same world with folks like that, when one is full of real spiritual sentiments. Don't you think so, too? But when one is deeply stirred one just simply must express oneself to some one, and that's why I write you. I'm sure you'll understand. Ain't it simply terrible to be misunderstood? Well, what I mean is, orange blossom season always stirs me to the depths of my being. I respond to it as the ukulele responds to the first ear-piercing touch of the true artist. Every time it comes along I find myself utterly in tune with it. I am filled with a wild, sweet yearning to get married again—Holly Woodliss.

We Had No Men—
 That orange trees were in bloom as often as that.
Every Dishwasher Knows
 Lee: They may not have a perfect right to call this stuff they sell in the near-beer bars by the name of beer, but some of it sure tastes like real, genuine suds—Chase M. Nichols.

Speaking of Bars
 There's a "Malted Milk Buffet" on North Broadway. And every glass served is said to have a real cool kick in it.

THE FILM EMBARGO
 The embargo placed on the distribution of American films in France is an objectionable measure from many viewpoints, and one which it is difficult to predict its effect. But it is to have been the only possible answer to the French law which sought to force the purchase of French films upon the American distributors. If the view is correct that the French exhibitors show American films because their patrons demand them, and there seems plenty of evidence to that effect, the embargo will succeed in its purpose of forcing a change of attitude on the part of the French government, or will wreck the French theater business. As the French government keeps a closer finger on the pulse of business than do most governments, it is unlikely to permit the wreck of the theater.

A few months ago the French yielded in a tariff dispute with the United States, upon a showing that in a war of duties French manufacturers would get the worst of it. The film war is another in which the French appear to be seeking an undue advantage, and a similar yielding is to be expected. Though some fine pictures have been imported from Europe, the bulk of the Hollywood production is rather mediocre. Hollywood films have won their dominance in the field through merit. Considering the freedom the European artists and directors have in entering the film field here, the discrimination attempted against American films is evidently unfair; their actions are well-comed, our films are barred out. The film industry has shown no disposition to retaliate in kind, nor would it be wise to do so.

Many centuries of experience go to show that it is futile to attempt to regulate popular taste by legislation and that it is better to let that taste have free play within the wide limits set by moral standards. The French will find it impossible to stimulate their film production by such artificial methods as the four-to-one quota law.

MASS THOUGHT FACTORIES
 An eminent publicist and educator recently decried the American tendency to accept thought and opinion emanating from a central source and expressed the fear that the country is rapidly approaching a condition of mass thought manufacture comparable to mass production in industry. The American public is highly impressionable and its individual minds do easily absorb opinion expressed in print, even though it is really only a part of a campaign of propaganda. Fortunately there are still and always will be enough independent journals in this country to interpret the mental product of thought factories for the benefit of those who care to study interpretation and reach their own ultimate conclusions.

The discussion presents confusing paradoxes. While our politically minded mentors are warning us against mass thought loaded with insidious opinion, philosophers of broader vision warn us against provincialism and sectionalism. Our educational resources, however, are now so extensive that provincialism as a danger is past, sectionalism of itself is only a natural variation. It is imbued with common sense and a national spirit it is of more direct value than indirect harm. Only when newspaper syndicates strive to foist upon one section the opinions and selfish aims of another is there real menace in the propaganda mill.

WHY GET RICH?
 By James J. Montague
 I've always thought that money One's troubles would assuage, And bring to him a sunny And indolent old age. I fancied affluent bankers All led a life of ease And calmly cast their anchors In still, untroubled seas.

But Secretary Mellon, Who has abundant health, And who, I know is well on His way to boundless wealth, Spends not an hour in shirking Nor turns his thoughts to play. He grins like a man working Nine hours every day.

I never had a craving For hard laborious toil From any form of slaving I instantly repudiate. But often I have wondered If I had not been rash, And seriously blundered When I amassed no cash.

LETTERS TO THE EDITOR

[Name and address of writer must accompany all letters for this column. Letters of personal nature or involving contentious religious questions are not acceptable.]

A Good Investment
 LOS ANGELES, April 5.—(To the Editor of The Times:—) Referring to G. Bacon Price's article apropos of the airport bond issue which is to be submitted to a vote may I remind him that Paris has eight airports. I assume that if Lindy landed at only one airport, as Mr. Price reminds us, it's because he has not found a way to land at two fields at the same time.

Los Angeles is going to need at least six airports in the very near future and now is the time to purchase them. I say this even though I shall be called upon to pay heavily as I am an extensive property owner. The "empty acres" which Mr. Price mentioned are going to sell for \$10,000 per acre within the next ten years and within twenty-five years there will be no "empty acres" within seventy-five miles of Los Angeles level enough for anything but a goat to stand on. The day of air travel is here now and we must provide depots for them. I agree with Mr. Price that future generations should be made to pay for the purchase of these lands, for public improvement, but folks like Mr. Price never seem to profit by past mistakes. L. Z. MCGEE.

As to Insulin
 PASADENA, April 5.—(To the Editor of The Times:—) Under the title "Diet and Health" Dr. Louis Peters, in a contemporary newspaper of yesterday, takes exception to certain statements made recently by a correspondent of The Times concerning the drug, insulin. Dr. Peters states in this connection: "She (the other writer) gave the impression that insulin was of no use, by quoting some doctor who said it did not cure. How many deaths this woman has to account for by that letter, she'll never know until she answers the call. She was absolutely false in her conclusion for insulin is in greater use than ever."

I am not the party who wrote what Dr. Peters objects to, but I have written articles on the subject which were published by two magazines of national reputation, and also for a local weekly. In all of which I have stressed the danger of insulin. All my proofs and quotations are from authoritative medical men, and from standard medical journals.

If diabetes were really an "incurable" disease, there might be some excuse for recommending such doubtful and dangerous drugs as insulin, and to advise patients to be one of the most easily cured of all diseases under intelligent nature cure methods. When Dr. Peters, in the latter part of his article, says "There is no physician who claims that insulin cures . . . but it cures insulin as keeping the patient alive and in good health," one inclines to wonder what the difference—if any—between a "patient" and a non-patient is, or how a person can be suffering from diabetes and be in good health at one and the same time.

ALICE M. REINHOLD, N. D.
 Was and is to be
 SALT LAKE CITY, April 4.—(To the Editor of The Times:—) Before me is a clipping from The Times in which John Steven McGroarty discusses the question, "Where are they now?" referring to "the yet unborn, the still uncreated," as he terms them.

He takes it for granted that the question of "where will we be in 100 years from now?" is quite well established in the minds of all Christians, but the other thought, "where are those who are yet to come" staggers the mind of us all, and is a new problem to him.

To the Latter Day Saints, or "Mormons," the answers to both questions are equally well stated in the scriptures as well as modern scripture. We shall appreciate the privilege of a small space to make a few observations and refer your readers to some passages of Scriptures, although this subject could well occupy several columns.

The doctrine of pre-existence in some form has been held for thousands of years. Plato taught it, the Hindus and the Egyptians have recorded it and in some forms it is held today by several cults and churches. The Latter Day Saints, however, are distinctive in their view of this part of their belief.

DEPEW AT CLOSE RANGE

BY BAILEY MILLARD
 Of all the famous men whom I met in my old New York days Chauncey M. Depew stands out most strongly in my memory. I had previously seen and talked with him in San Francisco, so when I went to visit him in his office in the Grand Central Building one November day fourteen years ago he seemed like an old acquaintance.

Of goodly height, sparse white hair, eagle beak, firm chin and keen, deepest eyes, he was an impressive figure. His face lighted up with a friendly smile when I told him the object of my errand, which was to induce him to write his memoirs for the Munsey Magazine. I told him Mr. Munsey had sent me and that he was very anxious to secure the memoirs.

"Oh, yes," he said in genial tones. "Good old Frank Munsey. If I were to write my biography for anybody it would be for him. I'll think it over. Meanwhile make yourself at home. I'm not busy."

We fell to talking, he doing nearly all of it. Like any other man of his rank and position, he was full of reminiscences, and told me story after story of his younger days. I asked him if he remembered a certain verbal set-to he had with Gen. W. H. L. Barnes at San Francisco orator and attorney, back in the 'nineties, in the old Bohemian Club of that city.

"Don't I though?" he said exuberantly. "That was a great dinner, and that man Barnes was certainly a great talker. For a while I thought my reputation as an after-dinner speaker was going to be dimmed."

In the opinion of most San Franciscans, myself included, it was rather dimmed for we thought that Barnes was a man of vivid personality and a great raconteur, had rather put it over the famous Chauncey, who, however, was not for one moment at all at ease. One seated not far away, could have told, though when it came to repartees Barnes matched up with him, as we all thought.

However, local pride may have warped our judgment. Mr. Depew at the time I called on him in New York was seated at a big glass-topped desk in a large room decorated with a rather somber tone. His strong, patriarchal face, detached from the dark background, was somewhat pallid, though tinted in a way to bring to mind that of an old English squire. He was the kind of man who talked as if he had known you all his life—a perfectly friendly, but not a politician. Yet his tone was not oratorical nor oracular, nor in the least superior or patronizing.

I called four times to see him on the same errand. On the fourth visit he turned me down quite unexpectedly. "I don't do much writing these days," he said, "and I have no conceit of it. Writing always was hard work for me—that is, when I wanted to express myself understandingly and to advantage. You say I might dictate the stuff. So I could, and people would read it and, perhaps, enjoy it. But dictating is no easier for me than writing. As I stood in the doorway of his office I looked back at the kindly old man. He seemed as much disappointed as I was. I went out, but he would have written that biography had he felt up to it. But the task would have been a heavy one for a man of his years, still holding down the important position of vice-president and chairman of the board of directors of one of the largest railway systems in the country—a job that would have been big enough for a much younger and more active man.

THE BLARNEY STONE
 BY WYNONAH JOHNSON
 The man who collects old statistics remarked that more than 27,000 Americans kissed the famous Blarney Stone during the past year, according to records in the visitors' book kept by zealous attendants at the castle, and he sighed gustily.

PEW

Mistral, you can say what you like, but it's the only wind that comes from the south.

Another person, these days, says that it's the only wind that comes from the south.

There are those who say that it's the only wind that comes from the south.

There are those who say that it's the only wind that comes from the south.

There are those who say that it's the only wind that comes from the south.

There are those who say that it's the only wind that comes from the south.

There are those who say that it's the only wind that comes from the south.

There are those who say that it's the only wind that comes from the south.

There are those who say that it's the only wind that comes from the south.

 Flights Tee Off Today in Match Play

BY EDWARD LAWRENCE
 Kathleen Wright, who is personally acquainted with the left of grass on the fairway of the Plintridge Country Club, holed out on the eighteenth green for a 78 yesterday afternoon to lead a truly brilliant field in the qualifying round for the California State women's championship. Miss Wright's 78-1-77 was a record for the state, while Mrs. Roy Brown of the California Country Club turned in a card of 8-11 to win low net.

With the exception of the high and tenth holes, in which she scored seven strokes, Mrs. Wright played an even game. Her first round was a 78, and her second a 77. She was the only player to score under the tape with a 72.

Notes in that order to get to the green in two strokes, she played a 72. The green was played in a number of instances. The first round was a 78, and her second a 77. She was the only player to score under the tape with a 72.

Major League Baseball Clubs All Set for Opening of Diamond Season Tomorrow

YANKS FAVORED IN JUNIOR LOOP

Figure New York Team to Beat in American League

Seven Clubs Given Chance in National Circuit

Phillies Only Team Doped as Out of the Running

BY ALAN J. GOULD
Associated Press Sports Editor
NEW YORK, April 9. (AP)—The New York Yankees are the odds-on favorites in the American League race that has an advance and solitary starting tomorrow in the nation's capital, but it is a great season for jump shots in the National League.

Seven of the eight clubs in the circuit will have at least a vote in the debate over if all are not actually able to carry the argument into the final stages of the campaign.

Only the Phillies are eliminated from calculations that estimate the biggest and most exciting National League scramble in years.

The nation's policy seems to be for more and longer pennant arguments in contrast to the Yankee notion of making it a private fight. There were four outstanding pennant contenders in the National League race last year and a fifth club Cincinnati, having a lot to say about the order for the season.

COOPER IN FULL BLOOM
In such a race for all as the one that gets under way tomorrow, it is only natural to find in bloom, if not full bloom, hopes and aspirations that have not been so conspicuous through the last few years.

Only five out of fifty-eight experts have picked the Cubs to win, but if the Cubs continue the pace they have displayed so far in spring training, a lot of the boys with make a belated race to get on the Chicago bandwagon. Those who picked the Cubs will be heard from later.

McCarthy's third year in charge of the Cubs' staff, it has been the greatest ever since the team's first season in 1918, when it was the last of the Cubs' speed and power.

The Cubs are the only team in the league that has won the pennant in the last season. They were only a game and a half apart at the close of last season and they may be just as close again, but in addition to watching each other they will need to keep an eye on the Giants, Braves, Robins and Reds.

BUCK EXHAUSTED
It was the headcoach who acquired trying to win the pennant, deciding game from Cincinnati last season that affected the Pirates in the world's series. The Bucs were exhausted from the strain of battling a club which was only fifth in the final standing, but which was playing as good ball as any

FOUR MAJOR LOOP FAVORITES TO CLASH IN OPENING TILTS; RED SOX FACE SOLONS TODAY

NEW YORK, April 9. (AP)—The start of the major league campaign will find the first two popular choices on each circuit lined up as opponents.

In the American, the Yankees engage with the Athletics while in the national, the Pirates book up with the Cardinals.

With the exception of the Senators and Red Sox, all the clubs begin hostilities on Wednesday. Washington and Boston go into action tomorrow.

Indications are that Benton will take the mound for the Giants against his former club mates, the Braves, who probably will use Greenfield, graduate of the McGraw school, on the peak.

Probable opening day pitching selections:
AMERICAN LEAGUE
Boston at Washington
MacFayden vs. Gaston
New York at Philadelphia
Moore vs. Grove
Cleveland at Chicago
Elliott vs. Lyons
St. Louis at Detroit
Gray vs. Whitehill

Assignment of umpires for the baseball season on Wednesday was announced here today as follows:
Brooklyn—Gier, Hart and Jorda.
Cincinnati—Crosby, Farnham and Stark.
St. Louis—Klein, McCormick and Magy.

PLAN BIG SWIMFEST IN AMBASSADOR HOTEL POOL

What he is pleased to style as a genuine pre-Olympic swimfest is planned for the afternoon of Saturday, May 5, at the Hotel Ambassador's outdoor swimming pool by Coach Fred Sponberg, whose last meet featuring a diving contest under Olympic rules was pronounced an unqualified success.

This aquatic festival will feature regulation Olympic events for swimmers with ambitions for winning places on the 1936 Olympic team. The meet will feature a 100-meter race, for instance, which events have been listed that it is virtually impossible to select any single one or two as favorites.

The 100-meter race, for instance, will feature Duke Kahanamoku, veteran of three Olympiads, representing the Los Angeles Athletic Club and recently reinstated as an amateur, and Weston Kimball, the second to five wearing the colors of the Hollywood Athletic Club.

George Harris and Austin Clapp of the movie organization, Tom Blake of the Los Angeles Athletic Club and Bela Kendall of the Pasadena Athletic Club are the hosts.

With the same outfit that was so troublesome last season, plus the handicap of having their Cuban star, Adolfo Lucubio, in the best shape of his career.

The guiding hand of Rogers Hornsby is already apparent in the progress of the Braves. Rogers has displayed a genius for leadership. He brought the Cardinals up in the first division after hard fighting in 1933, led them to the pennant in 1934 and had a big part in the great drive of the Giants last season. He has different material to work with this season, but his dynamic presence on the field will make the Braves a tough team to beat.

Meanwhile, the Giants, under the indomitable guidance of McGraw, seem to have overcome much of the handicap of Hornsby's sudden departure. If Cohen can plug the second-base gap the club will be a contender.

Brooklyn, with its great pitching staff as any club in either league and new strength elsewhere, may be an important factor in the race. The Robins have a habit of making themselves conspicuous every four years and this is the year they are due.

But, like most of the other clubs, even among the favorites, Brooklyn has some weak spots. The Cubs have had no underdog in the Pirates a pitching worry or two. The Cardinals could use another outfield star. There are question marks at second base and in the box for the Giants.

As in the National, several American League clubs are shooting at the same mark. The difference is that one group is aiming at the pennant, while the other is hooting at the Yankees. The Athletics seem well equipped to do the most consistent thing. Connie Mack has plenty of reserves to replace any of his veterans who show signs of weakening.

PREP ATHLETES MEET ON TRACK

City League Teams to Stage Trials at Coliseum

Los Angeles High Favored to Cop Honors Today

Romans Have Not Met Defeat in Duels This Year

Track and field stars from seven city league high schools will gather at the Coliseum this afternoon in the trials for the all-city championship. The track meet this afternoon will pave the way for the title which will be staged at the Coliseum next Saturday. Today's trials will find Los Angeles High School a heavy favorite to cop the honors. Coach Rich's "Ramblers" have not met defeat through their dual meet season without meeting a single defeat.

The Romans are already favorites in the trials today they expect to fix matters so that their plans will not be upset. Coach Rich's "Ramblers" are already favorites in the trials today they expect to fix matters so that their plans will not be upset.

Yankees Sign Up Coveleskie for One Year

BROOKLYN, N. Y., April 9. (AP)—Stanley Coveleskie has succeeded in his comeback campaign. The veteran pitcher, who had been working on trial for the New York Yankees this spring, has been given a one-year contract, Miller Huggins announced today. The terms were not announced.

Dempsy has started training for his retirement. It takes preparation to knock off, the same as to knock on.

It's no chance to face the rigors of private life after the ease and luxury of championship.

As near as I can figure round by round, Jack has worked an average of four seconds a day for the past nine years.

At that rate the old boy will have to do some fall training, if he expects to get into condition to earn a living.

Years of peace have left their mark on the boxer.

And court functions of a heavyweight king have sprained his nerves.

So on second thought, Dempsy may attempt to win back the title this fall just for the glory.

He'll make up his mind for sure as soon as Richard mentions what price glory.

Feathers Mix on Hollywood All-Star Card

Harry Blittman, Philadelphia's leading featherweight contender, and Tony Mandell, Boston flash, headline an all-star fight card which Manager Tom Gallery is staging at the Hollywood Legion on Friday night. Blittman made his debut at the Legion two weeks ago when he soundly trounced little Johnny Farr, the Iron Man among the featherweights. Blittman showed that he had lots of class in that fight. In Mandell he is meeting a boy who has had 107 fights out of which he has won 101 victories.

Mandell claims to have beaten Johnny Vaca three times in Boston rings. Blittman, who is seeking a shot at Joey Gansner, is out to put the Boston boy away, according to his backers. Mandell claims he will give Blittman a real fight. The Legion fight is the semi-main event of the night. In the semi-main event, Jackie Carr over the six-rounder.

The special event brings together Walter Hoffman and Russell Walters, two heavyweights. Walters is a prizefighter of Tom Kennedy, the old-time champion. Walters is being groomed for the things in the heavyweight ranks by Kennedy and is just now far as he is going to go by the way he handles Hoffman Friday night. There are two two-rounders on the card.

Morrie Cohan, Pasadena boxing promoter, is set on the trail of a big open-air battle for June, and he wants Johnny Risks, the Cleveland brawler boy, and Mack House, sensational Los Angeles colored heavyweight, as the principals. Cohan says he has wired Risks an offer of \$10,000. House has already accepted terms.

The site for the fight has been selected by Cohan, who says it will be close to Pasadena. Cohan agrees to terms, it will be necessary for House to cancel an offer he has to visit South America this spring and fight Victorio Compolio, the Brazilian giant. In that Risks has been edged out of Tex Rickard's heavyweight title in New York, the Pasadena promoter is confident he will snap up the Coast offer.

Sport Cracks By Bud Lands

GAVUZZI FIRST IN DERBY LAP

(Continued from First Page)

Torino in 5:25:30 while Gavuzzi's time for the distance was 5:28:30. Gavuzzi is second in elapsed time. The Englishman and the Italian, who battled for second place while Arne Souminen of Detroit led the runners, are expected to wrap a hot battle for supremacy through the Boston State. Souminen dropped from the race Sunday when a strained tendon in the right leg forced him to medical treatment.

On the fifth lap, Gavuzzi, who will defend the Pacific Coast title which he won by defeating Jimmy MacKay, the American champion, in the final race, was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the sixth lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the seventh lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the eighth lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the ninth lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the tenth lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the eleventh lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the twelfth lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the thirteenth lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the fourteenth lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the fifteenth lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the sixteenth lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

On the seventeenth lap, Gavuzzi was leading the field. He was followed by Souminen, who was with the Pacific Coast title, and then by the American champion, MacKay.

MERCURY BOXERS PREPARE FOR NATIONAL TITLE

BY FRANK BOCHER

Friday, the thirteenth, may be a holiday to some people, but to Clayton Frye, boxing instructor of the Los Angeles Athletic Club, and his team of eight boxers it is the start of a long journey to seek Olympic and national boxing championships. Frye and his boys have been working hard and spilling sweat and blood for the past several months. Frye threatened to start a fight if it didn't stop.

At any rate Frye and the following boxers: Harry Brown, heavyweight; Martin Malone, middleweight; Carmine, welterweight; and Jimmy MacKay, featherweight, are all going to the national and Olympic championships. Frye and his boys have been working hard and spilling sweat and blood for the past several months. Frye threatened to start a fight if it didn't stop.

Held Annexes Medal Round
PINEHURST, N. C., April 9. (AP) Eddie Heid, New Yorker, who once held the trans-Atlantic title, won the qualifying medal of men's North and South amateur golf championship today with an aggregate score of 147.

Heid trailed the leader last week in the first round, scoring a 76, but his 71 in the final eighteen holes of the qualifying placed him one stroke ahead of Eugene Hornsby, Princeton

Early Shopping Food Pages

Take time by the forelock by purchasing your market supplies and groceries early in the week—shop today!

PRACTICAL RECIPES

Early week-day shopping is becoming the rule for our economical housewives. Dealers can afford better values and give more time to orders.

WHEAT AND RICE

WHEAT AND RICE. One cake of wheat and rice, scalded with water, and let rise in a warm place. Add one-half cup of oil, and one-half cup of sugar. Bake in a moderate oven twenty minutes.

BANANA PIE

BANANA PIE. The banana pie you have reference to is sliced bananas that have been sprinkled with lemon juice, placed in a baked pie shell and a lemon gelatin poured over them and the whipped cream piled on top.

FRESH EGGS

FRESH EGGS. One quart of silicate of soda (water glass) to ten quarts of water; boil and cool the water, add the silicate of soda, put in an earthenware crock, and the eggs, being sure they are fresh and not cracked. It is not necessary to fill the crock at one time. When you have filled it sufficiently the pieces of muslin over the top and wet with the solution. Cover and place in a cool dark place.

DIVINITY LEMON PIE

DIVINITY LEMON PIE. Beat the yolks of three eggs very light. To this add the juice of one lemon, and grate the rind of two lemons. Three tablespoons of hot water, one-half cup of sugar and a half a teaspoonful of salt. Cook in a double boiler until thick. Beat the whites of the eggs until stiff, add one-half cup of sugar to them and add into the cooked mixture. Fill a previously baked pie shell. Place in the oven and brown.

FRICASSEE OF CHICKEN

Put into place a large young fat chicken and season with pepper and salt. Place in a deep iron sauce pan, one tablespoonful of shortening, and when it is hot lay in the pieces of chicken and fry to a light brown. Remove the chicken to a hot platter, add to the shortening in the pan two tablespoons of flour and stir until a light brown. Then add one finely chopped onion and when the onion is brown add a tablespoonful of minced parsley, one crushed

BAKED ORANGES

BAKED ORANGES. Select six even-sized ripe oranges, remove a slice from the blossom end, and carefully separate the fruit from the stem with the back of a teaspoon without breaking the skin. Press into each orange one tablespoonful of sugar, one tablespoonful of seedless raisins, and two teaspoonsful of butter. Place the oranges in a baking pan, fill the pan with water, to within one inch of the top of the oranges. Cover the pan tight, set in a slow oven and bake slowly for one and a half hours or until the skins are tender. Uncover the pan and slightly brown the oranges. Lift out the oranges, add to the pan the strained juice of two oranges, three tablespoonsful of sugar, one tablespoonful of cornstarch, wet with cold water, and one tablespoonful of butter. Stir and boil three minutes and strain over the cooked oranges.

WHEAT AND RICE

WHEAT AND RICE. One cake of wheat and rice, scalded with water, and let rise in a warm place. Add one-half cup of oil, and one-half cup of sugar. Bake in a moderate oven twenty minutes.

WHEAT AND RICE

SAFEWAY STORES

DISTRIBUTION WITHOUT WASTE

An Organization of Mutual Helpfulness

The spirit of mutual helpfulness, practiced among members of this organization, is one of the most important factors in the phenomenal growth—in number and popularity—of Safeway Stores. This willingness to help his fellows—and be helped by them—enables the Safeway Man to effect operating economies and accomplish tasks that—working alone or at cross-purposes—he could not hope to accomplish. You, as the consumer, profit by this co-operation among members of our organization through the greater values it permits us to give you.

Safeway Savings

Del Monte Catsup

A nationally known brand at a very attractive price. Remember—this brand is usually sold at 20 to 22c per bottle.

Large Bottle 15c

Kellogg's Pep

Quickly prepared, gives the children just the food they need and helps the grown-ups to start the busy day right.

3 Pkgs. 29c

Strawberry Preserves

Again we are able to offer these wonderful preserves. If you have not tried them, do not miss this opportunity, and if you have tried them, you will welcome this opportunity. No. 2 cans.

Can 25c

Whole Wheat Raisin Cakes

Fresh, healthful. A very delicious cookie made by Bishop & Company, and delivered daily to our stores.

Lb. 25c

Blueberries

For pies. Maine blueberries are famous for their goodness and flavor. No. 2 cans.

2 Cans ... 55c

Kraut

Morgan's. That good Kraut. Packed and grown in Utah. Large No. 2 1/2 cans.

3 Cans ... 44c

Figs

Planada. A delightful and healthful breakfast dish. 18-oz. cans.

3 Cans ... 59c

Starch

Argo. Buy this in the large size economical package. 3-lb. pkg.

Pkg. . 25c

Listerine

The safe antiseptic. Immediately attacks the countless disease-producing bacteria in the throat.

7 Oz. Bottle 43c

3-in-One Oil

Prevents rust. Cleans and polishes. Comes in handy cans.

3 Oz. Can 25c

Tooth Paste

Listerine has halved the tooth-paste bill of more than two million people. Medium-sized tube.

Tube 20c

Beans

Heinz Oven Baked

Plain, without meat or pork and tomato sauce. Always welcome—this tempting dish of just out of the oven flavor.

Medium 18-oz. can.

4 Cans 49c

Fruits and Vegetables

Below we quote prices in effect in Safeway operated stands. All such stands bear the sign: "Safeway Operated."

Tomatoes

Fancy fresh ripe tomatoes of good size. For a quick, seasonable salad.

2 Lbs. 25c

New Potatoes

Fancy Large. A most appetizing dish—new potatoes and green peas.

5 Lbs. 25c

Peaches

Oak Glen Sliced

A brand that you can always be sure of. Try sliced peaches with Jell-Well, cake, desserts, salads, etc.

Medium No. 2 can.

4 Cans 59c

California Dainty Maid

For making pure jellies and marmalades. Orange, fig and apricot marmalade—Grape, raspberry and mint jelly.

FREE

1 Glass Dainty Maid Jelly or Marmalade with each two packages of Dainty Maid.

1 Pkg. Jelly Powder 15c

1 Pkg. Marmalade Powder 20c

1 Glass 20c Jelly FREE

ALL FOR 35c

California Dainty Maid

For making pure jellies and marmalades. Orange, fig and apricot marmalade—Grape, raspberry and mint jelly.

California Dainty Maid

For making pure jellies and marmalades. Orange, fig and apricot marmalade—Grape, raspberry and mint jelly.

Of Interest to Women.

SOCIETY

BY JUANA NEAL LEVY
Formal announcement is made this morning by Mr. and Mrs. Joseph E. Tilt of 465 Bradford street, Pasadena, of the engagement of their daughter, Miss Judith Tilt, to Dr. Carlyle Ferran MacIntyre of La Crosse, Wis. No date is set as yet for the wedding.

Naval Wedding
One of the early spring weddings was that of Miss Katherine Galt Banta, daughter of Col. and Mrs. William F. Banta of 7608 Norton avenue, and Joseph Francis Malack, naval ensign now detailed to the U.S.S. New Mexico, with the Pacific fleet. The ceremony took place March 28, last, at La Verne Inn, Palos Verdes.

The decorations included roses, Easter lilies and all the early spring flowers. Col. Banta gave his daughter into the keeping of the bridegroom at the improvised altar, with Father Donovan of Loyola College officiating.

The bride wore a gown of white chiffon tulle, made on long straight lines, the veil of tulle reaching to the floor and held in place by sprays of lilies of the valley, long white satin streamers falling to the floor at the back across the train of tulle. The bridegroom wore an immense shower of bride's roses, lilies of the valley and maidenhair fern.

Miss Lavinia Lodge and Miss Margaret Boyd Anson of Hollywood assisted as bridesmaids, the former wearing a gown of pale blue georgette with hat to match and the latter in a frock of gold georgette with hat to match. Both carried pink and yellow roses and ferns.

Best men Joseph Fitzsimmons of the U.S.A. Bar Association and his brother officer as best man.

Immediately following the ceremony Ensign and Mrs. Malack left the altar walking beneath crossed sabers held by Ensigns Cochran, Ward, Newman, Fitzsimmons, Burnside and Rapaport of the New Mexico.

After a brief honeymoon at Coronado, Ensign and Mrs. Malack returned to Los Angeles, and the former returned to his ship, attended cruise. After the fleet's return they will make their home at San Diego, where Ensign Malack will be detailed at the destroyer base.

Mrs. Malack was graduated from Hollywood High School and attended the University of California at Los Angeles for a year and a half, where she was a pledge of Kappa Alpha Theta Society. During her husband's absence she will be with her parents in Hollywood.

Col. Banta is a retired United States Army surgeon. Their son, John Craig Banta, is to graduate in June from West Point, where he has won many honors in his class work. He will enter the air service after graduation.

Col. and Mrs. Banta are planning to leave by way of the Panama Canal for West Point, the 26th inst., and the young cadet will return with his parents for his leave of absence following graduation. Later he will be detailed at Kelly Field.

Mrs. Banta received her guests in a gown of pale-blue georgette with which she wore a corsage of gardenias and maidenhair fern.

Under Holiday
Miss Catherine Morrison, daughter of Mrs. Norman Holt Morrison of 690 South Bronson avenue, is passing her Easter holidays with her sister and brother-in-law, Mr. and Mrs. Roger L. Rice, the latter formerly Miss Lella Morrison, at their home at Canby, Ore. Miss Morrison, who graduated last June from Marlborough School, is a student at Miss Choate's School at Brookline, Mass.

Dinner-Dance
Dr. Samuel Goodwin Grant of New York, who is domiciled at the Biltmore, returned many of the lovely social courtesies extended him during his stay in Southern California this winter, entertaining recently with a dinner-dance at the Club Casa Del Mar. There were fourteen guests and, after supper, the evening was passed with bridge and dancing. Among the guests were Mr. and Mrs. Alexander Barrett, Mr. and Mrs. James Reddick, Mr. and Mrs. J. Leath, Mr. and Mrs. Eugene Hawkins, Mr. and Mrs. W. J. Dodd, Mrs. Mary Jeffers, Mrs. O'Dell McConnell and Ulysses Grant McConnell.

Return from Desert
Judge and Mrs. Russ Avery have returned from a two month sojourn at Desert Inn, Palm Springs, after having passed a few days at Coronado on their return trip.

GUESTS AT BEVERLY HILLS Friends Spend Hours on Bridle Trails

Miss Helen Pettibone and Miss Solace Huntington

MISS HELEN PETTIBONE, daughter of Mr. and Mrs. A. D. Pettibone of Cleveland, and Miss Solace Huntington (right), grand niece of the late H. E. Huntington, are enjoying the season at the Beverly Hills Hotel. Both are very popular among the younger set and have been the inspiration for several social affairs. Both are ardent horsewomen and can be seen almost daily on the bridle paths in and around Beverly Hills.

HEALTH AND DIET ADVICE
By Dr. Frank M. Coy
Author of "The Four Food Rules"

FOOD POISONS
The largest amount of food poisoning comes from wholesome food being used at a time when the body is enervated—when the body cannot properly take care of the digestion of this food. Lying undigested in the stomach or intestines, even the best food will rapidly putrefy, and toxins will be developed, which will be poisonous to the system.

If a meal is eaten when you are angry, poison is sure to develop. It is likewise true that similar poisons will be produced under any mental strain. If you are tired, you are inviting disaster if you go to the table and eat a hearty meal. The digestive system is at its best when the food will, therefore, not be digested and assimilated. It is not possible for food to remain lying in the stomach or intestines in inert condition; it must either nourish you or poison you.

Of course, combinations of food which are antagonistic to each other will not digest properly and during one kind of food is not digested at all and, therefore, it turns into a poisonous substance which is harmful to the body.

With our modern systems of refrigeration, it is not necessary to use foods which are very hard to digest, and the action of which is very positive and dangerous. This poison is found mostly in canned goods, especially in canned beans if the can has rusted and air has been let into an opening. This poisoning, however, occurs very rarely in canned string beans, but is more often found in the home-canned string beans, where they are put up in glass jars and not sealed properly.

Oysters and clams which seem to be perfectly healthy are often infected with the germs of typhoid fever and, used in their raw state, these kinds of shellfish are generally dangerous.

If any kind of protein food is used, where there is a slight taint to any part of it, it is liable to cause ptomaine poisoning if one is not in good health and is not really hungry for the meal.

If you are foolish enough to eat when the digestive juices are not flowing freely, the best thing to do, should be to vomit as soon as possible. This can be accomplished by drinking a glass of water in which a teaspoonful of baking soda has been dissolved, and tickling the throat with the finger. This will usually bring up the stomach contents and, of course, if the poison will come along with it.

After you have vomited all that is in your stomach, it is a good plan then to take a dose of castor oil, using about four ounces at a time. Copious emesis should be used every hour for several hours in order to get out all of the poisonous material which might lodge in the colon.

COLONEL TALKS TO CLUB WOMEN

L. F. Smith States Country Never Had Real Foe

Pleads for Greater Degree of Preparedness

Consul Fisher Tells About Duties in Los Angeles

Public affairs of both international and local import again occupied the Women's City Club in their meetings of yesterday. Godfrey Fisher, British Consul in Los Angeles, being the speaker of the luncheon at the Men's City Club, and Col. Leroy F. Smith addressing the afternoon meeting in the Morocco Theater on "Our Peace Establishment."

Two very striking statements were made by Col. Smith at the opening of his speech. "All the nations of the world are at war," he said, "and we have never encountered an enemy of our own size. If we had, we at a nation would have been whipped to a frazzle."

CONSIDERS REVOLUTION
The colonel first considered the American Revolution. "The enemy was 3000 miles away," he said. "All no time did Great Britain have more than 57,000 men in the field. We had 57,000 at once, and 400,000 all together during the seven and a half-year's fighting of the war. In the last analysis we won because Britain had a great many more men in the European field."

"In 1812 we sent the Quaker men to guard Washington. They were brave and patriotic, but no more of being called soldiers than you women are called soldiers for the countenance. They met 1500 men who knew their military vegetables, and retreated, unmanfully. They went back to Washington and they were pillaged and burned."

"In 1855 we started a seven-year war against the Indians in Florida, and 130000 men who knew their military vegetables, and retreated, unmanfully. They went back to Washington and they were pillaged and burned."

OUTNUMBERED MEXICANS
"We won the war with Mexico by sheer overconfidence of men, although we sent raw men into the field, and were hampered by sport enthusiasm at the end of the war. I am from Ohio—had three times the men and resources of the South."

"The year 1898 saw 100 days of war, each as full as it could be of errors. We also had many more troops than Spain had on this continent."

"The reason America was drawn into the World War was because she was underprepared. April 6, 1917, we signed up to play, and it was 400 days before we took our first steps into the war. After the war," continued the speaker, "the most pacific group of men in the world have ever seen—the ex-service men. They say, 'never again.' For they know how unfair it is to send untrained men into battle. They know that the loss, when they go over the top, is nearly 100 per cent, in comparison to about 10 per cent for trained soldiers."

Consul Fisher, outlining briefly the duties of the British Consul in Los Angeles, said that his duties were numerous and varied. "A large number of our population are of the ex-service men. They are asking us to trace missing relatives, especially husbands and sons."

HOUSEHOLD SUGGESTIONS

Let Them Dry Out
Never put down the lids of the stationary tub until they are thoroughly dried out. Otherwise a musty smell will greet you when next washday arrives.

A Real Investment
A soap shaker is a splendid for using up the odds and ends of soap. It is a help when using soaps for dyeing purposes, as it saves putting the scraps into the dye water. This useful article can be purchased at your nearest 5-and-10-cent store or at a nominal price at a hardware store.

YOUR BABY and MINE

By Myrtle Meyer Eldred

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. All stamped and self-addressed envelopes, forwarded to this office, will bring a personal reply.

SUGGESTIONS FOR TIME SAVERS

ALL MOTHERS SHOULD APPRECIATE
Mrs. A. B. S. writes:
"May I add my method of making beds to the one printed in your issue of March 26?"

"I use a Turkish wash cloth, cut a rounded neck line and add tapes for tying. These do not need hemming. I use a rubber band to hold the cloth in place. I have found that there is less likelihood of the cloth coming off the bed when the baby is in it. I have found that there is less likelihood of the cloth coming off the bed when the baby is in it. I have found that there is less likelihood of the cloth coming off the bed when the baby is in it."

ONE MORE SUGGESTION
Mrs. C. P. S. writes:
"I have found that if the baby's legs are tied to a cord fastened across his crib that they are with his reach and have mother the trouble of picking them up from the floor frequently."

ANSWER
These are all good suggestions. I am wondering, now that we are on the subject of beds, how many mothers have ever tried the old-

SOUND AUCTION BRIDGE

By Wilbur C. Whitehead
The World's Greatest Authority

Each day is published a complete hand presented by Mr. Whitehead. These hands may be played in any of the four suits. Fill out a sheet of your own and send it to Mr. Whitehead. He will send you the answer to your question. Send your sheet and also with that of your friends' complete sets to Whitehead.

13	♠	7	4	7	4

Salient Points of the Bidding
West's Informative double of one Heart is based upon distributional values with but minimum high-card requirements. He can not therefore make his partner's forced bid of Spades over South's two Hearts, unless his partner holds strength sufficient for a second bid. East, having shown his four-card Spade suit, properly makes the independent bid of three Clubs, after which West assists the Spade bid. South, having twice passed without hearing from partner, North now assists, holding assisting values in his two doubletons and five Hearts to the Queen. There is little hope of making the four Hearts bid, but his own length in the suit indicates that there is some chance of making the bid. South's business double of four Spades is of questionable soundness, but the chance appears to favor the defense. The contract, though East has clearly shown a semitwo-suiter.

Salient Points of the Play
Trick 1. South shifts to Diamonds in hope of making tricks in that suit upon getting in with the Ace of Spades.
Trick 2. Declarer leads a trump from Dummy instead of attempting to trump a Heart immediately. If there are not four trumps in one hand against him, the Heart can always be trumped at the end. If there are four adverse trumps in one hand ruffing the Heart will do no good, as he himself must trump a Diamond.

Other beverages are given in the booklet called Beverages. If you want them, write to Nancy Page, care of this paper, requesting the booklet and enclosing a stamped, self-addressed envelope.

CHEF WYMAN'S Suggestions for TOMORROW'S MENU

Every Tuesday and Friday at 2 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cooking in the lecture room of the Southern California Manufacturers' Exhibit, 119 South Broadway.

Breakfast
Grapefruit
Ham and Scrambled Eggs
Rice Crispie Cakes
Milk
Coffee

Lunch
Sweetbreads and Mushrooms
Indian Chicken Pie
Stuffed Beet Cups, Mayonnaise
Peach Snowdrift
Tea
Dessert

Supper
Clam Chowder
Stuffed Celery Sticks
Indian Chicken Pie
Straw Potatoes
Mashed Parsnips
Lettuce, French Dressing
Meringued Apples
Coffee

SWEETBREADS AND MUSHROOMS
One and a half cups of bottled sweetbreads cut in cubes, three-quarters of a cup of mushrooms cut in quarters. One cup of cream, one tablespoonful of butter.

INDIAN CHICKEN PIE
Cut up a three-pound chicken into joints as for frying and parboil in water to which has been added a sprig of parsley, a slice of onion, and three slices of carrot. Remove from the water and drain. Place the pieces of chicken in a casserole with alternate layers of sliced tomatoes, hard-boiled eggs and thinly sliced onion. Season with salt, curry powder, cayenne pepper, one finely chopped clove of garlic and finely chopped green pepper. Add two whole cloves and about two cups of the chicken stock. Cover with a short pie crust, brush the top with beaten egg, and bake in a moderate oven for an hour and a half.

STUFFED CELERY STICKS
Cut white firm stalks of celery into three-inch lengths, wash them well in cold water and dry with a cloth. Mix one small cream cheese with three tablespoonfuls of butter, season with salt, pepper, mustard and a few grains of cayenne pepper; make a paste and fill the concaves of celery with the mixture, and spread smoothly. Place on a folded napkin, garnish with sprigs of parsley.

MEERINGUED APPLES
Peel and core cooking apples and cook till nearly tender in a syrup flavored with lemon rind and a little cinnamon. Make a meringue of three egg whites, beaten until stiff and dry; then add three tablespoonfuls of sugar, beat again until stiff and add three more tablespoonfuls of sugar. Fill the cavities of the apples with butter and raisins. Pour over the meringue, sprinkle with sugar, place in the oven and bake for one hour. Remove from the oven and serve.

ONE MORE SUGGESTION
Mrs. C. P. S. writes:
"I have found that if the baby's legs are tied to a cord fastened across his crib that they are with his reach and have mother the trouble of picking them up from the floor frequently."

ANSWER
We must suggest also that a few toys can be likewise tied to the high-chair for the older child. Some mothers advocate toys tied to the carriage hood so that they are within constant reach. We don't like this idea so well, it is tiresome for the small baby to have to follow a moving object constantly with his eyes.

NANCY PAGE

The Nurse Makes Egg Nog Smooth as Silk
By Elizabeth La Grange

Nancy's mother had been ill. Even though she was well on the way to recovery they kept a trained nurse at home. She knew how to do things so easily and well and made the patient most comfortable. One of her specialties was an egg nog. She started by serving Mrs. Lee with one made by beating the egg yolk with sugar and mixing it with milk. Then she added the stiffly beaten egg white on top. This was pretty, but hard to drink. So later she used the simplest recipe mixed in the simplest manner.

Mr. Whitehead will answer questions concerning your Bridge problems. Write to him care of this paper, enclosing self-addressed stamped envelope.

EGG NOG
An aluminum cocktail shaker did just as well by egg and milk as it was supposed to do by a more fiery mixture. She put these ingredients into the shaker, put on the cap and shook vigorously for three minutes. At the end of that time she had a well blended smooth mixture which slipped down Mrs. Lee's throat like velvet.

Other beverages are given in the booklet called Beverages. If you want them, write to Nancy Page, care of this paper, requesting the booklet and enclosing a stamped, self-addressed envelope.

(Copyright, 1934, Publishers Syndicate, Inc.)

Worth the Time
One housewife who does all her own work and cooking and does it we stop work for ten or fifteen minutes in the middle of the day and reads some light literature for that period. It is just a tiny rest but the diversion and rest obtained makes her "carry on" with more rest and happier thoughts.

Bottle Cleaning
Mix equal parts of soda and coffee grounds together and pour into the soiled or discolored glass water bottle. Let stand for an hour, then shake and wash with clear hot water. Splendid results.

Sea Rover Captures Liner and Crew

Gypsy and Capt. Robert E. Judson

Gypsy, just an ordinary dog
that played in the back streets
of New York since birth, now is
enjoying all the luxuries bestowed
upon a mascot of an ocean liner.
The Panama Mail liner Colum-
bia, Capt. Robert E. Judson, was
moored to her berth in New York
Harbor. The night was squally.
Capt. Judson was in his cabin.

Suddenly the officer on watch
dashed into the cabin.
"I beg to report, sir, a drifting
barge that looks like it may crash
into the Columbia," reported the
officer.
Going on deck Capt. Judson
ordered a searchlight thrown on
the derelict. Perched on the drift-
ing barge was a dog.
"Throw out the collision mats,
quartermaster, and heave a line to
seven persons to the City Jail for
terms of from forty to twenty days
each.
Though arresting officers were
unable to produce proof of the de-
fendants driving automobiles, testi-
mony brought out by Deputy City
Prosecutor Jack revealed that the
men were seated in the cars while
under the influence of intoxicants.
Judge Gray sentenced three of
the drivers to forty days each, three
for thirty days and one for twenty
days. They were Harry Starnburg,
20 years of age, 2911 Oculdo street;
Tom Dowling, 34, 3413 Hubbard
street, and John McElhamon, 35,
6906 Hollywood Boulevard. Forty
days each; William Thompson, 35,
2020 West Eighth street; Manuel
Franko, 39, 774 Towne avenue, and
Leo Quintana, 19, 144 Bunker Hill,
thirty days each, and Adolph
Schultz, 53, 1820 East One Hun-
dred and Fourth street, twenty days.
Of the 127 men appearing yester-
day in the "Sunrise Court," as
Judge Gray's division is known,
104 were given sentences of 30 or
ten days each.
Eight women were fined \$20 each
by Municipal Judge Frederickson on
charges of intoxication.

COLLEGE PAPER HONORED
The California Daily Bruin, offi-
cial newspaper of the University of
California at Los Angeles, has been
admitted to associate membership in
the California Newspaper Publish-
ers' Association. This is the first uni-
versity publication to be received in
that organization, according to
James F. Wickham, editor.
Mrs. Martha Severn, a janitor,
has given a \$10,000 grant to the
First Baptist Church, of Everett,
Wash.

Men in Los Angeles

vean Opportunity to—

A prosperous and profitable business.
One of them may become an active and influential
man of the city if he can qualify financially
himself as a man with sufficient means, ag-
gressiveness and ability to take the dealership of an
and small manufacturer—one of the largest of
the world—in one of the most active lines
of business today.

A Man Now in Business

If it would put in the same aggressiveness and hard
work that has made his present business a success,
he could make greater profits, do a larger
business and enjoy a much more substantial stand-
ing in the community, with this line.

A Man Seeking a New Business

If you have just come to Los Angeles, seeking to es-
tablish yourself, we believe it would not be possible
for you to find any better opportunity anywhere in
the city than that offered by our client.

A Successful Salesman

If you have been successful in selling work, no doubt
you could be equally successful in selling your own
very own ammonia and imitation will
disappoint you. Our client's line is very active and with
valuable sales and advertising features.

A Mortgage Buyer

If you have been successful in buying and selling
mortgages, you have shown ability to see underlying
values that would cause you to quickly see the unlim-
ited opportunities in this business.

A Banker

One who is able to establish himself in a good busi-
ness, will be quickly impressed with the
opportunities for profit and substantial future in
this line.

If you have ample finances to conduct
business, and aggressive enough and ambi-
tious to go out after it.
If you are not in a position to take advantage of this
opportunity, you may do a friend a good turn
by referring this advertisement to him.

CITY OPENS SCHOOL FOR POLICEMEN

Thirteen Hundred Take
Course in Better Auto
Traffic Regulations

More than 1300 Los Angeles po-
licemen started to school yester-
day to learn how to make the city's
streets safe for pedestrians. Both
day and night sessions will be held
at the Central Junior High School
and the traffic problem will be dis-
cussed from every angle. The course
will consist of six lectures, the first
of which was delivered by City
Prosecutor Lickley yesterday after-
noon and last night. He discussed
the new traffic ordinance which be-
came effective recently.
At 3:30 p.m. and 8 p.m. today
Allen Davis of the Automobile Club
of Southern California will speak
on the State Motor Vehicle Act and
tomorrow's lecture will be given by
City Traffic Signal Engineer Dor-
sey. Classes will meet daily at
3:30 and 8 p.m. and a written ex-
amination will be conducted the
17th inst.

Courtesy rather than hard-boiled
methods is the policy advocated by
Chief Davis, since he feels that
most violations of the traffic regu-
lations are due to a lack of under-
standing on the part of the public.
If the police will do their part in a
kindly way, Davis believes the prob-
lem will be more than half solved.

CAR-FARE CUT CHEERS PASADENA

City Directors May Ask
State Rail Commission for
Local-Line Reduction

PASADENA, April 9.—A saving of
between \$150,000 and \$200,000 an-
nually to residents of this city will
result from the announced decision
of the State Railroad Commission
to decrease interurban fares, city of-
ficials estimated today. The reduc-
tions will be effective on the 15th inst.

The City Directors considered this
afternoon the advisability of peti-
tioning the commission to include
Pasadena in the 5-cent transportation
order. The present local fare
is 7 cents.
The board also is considering
whether to ask the Railroad Com-
mission to make a survey with a
view to routing interurban cars to
and from a terminal located at
South Broadway and Green street
instead of routing red cars on Fair
Oaks avenue, as at present.

SUNKIST MEN LAND PLUM

National Award Goes to Fruit Growers' Exchange as
Advertising Drive Gives New Food Facts

Because of the uncovering of valuable facts regarding the chemical
composition of products and because of the improvement of national
dietary habits the California Fruit Growers' Exchange has been awarded
a certificate of merit for the most conspicuous work in research and
advertising fields during the year 1928 by the American Food Journal and
the Home Economist, according to announcement made last night by
those magazines.

The jury of awards was unani-
mous in its opinion that Sunkist's
campaign on oranges and lemons
ranked first among the material
submitted by the various ad-
vertisers.

The award was made for the un-
covering of facts regarding the
chemical composition of products,
aiding the commercial division of
the food field in appreciating and
profiting by the work of scientists.

WEED CLEAN-UP TO START

Council Sets Aside \$53,000 as Initial Expense of
City's Annual Tidying Up

The City Council yesterday authorized the city's second annual weed-
cleaning campaign started at once, the one last year being declared by
Councilman Hall, father of the plan, and by Councilman Alber and
Fire Chief Scott to have been a great success.

More than 50,000 lots were cleaned
cleaned of weeds by city forces last
spring, Councilman Hall said, and
as many more cleaned by the own-
ers when they found that if they
did not clean the lots city forces
would bill the owners for the
work on their tax bills.

The city's initial expense last
year for the lot-cleaning work was
\$60,000 and all but \$16,000 of this
money was returned to the city
treasurer. The city's expense was
offset, Councilman Alber said, not
only by the improved appearance of
the city but also by the reduction
in the number of fires and fire taxes.

CAPT. KNOWLES SUSPENDED

Action Against Hollywood Division Police Officer
Follows His Arrest by Dry Agents

Charles M. Knowles, acting captain in the detective bureau of Holly-
wood Division Police Station, yesterday was suspended from the police de-
partment following his arrest Saturday by Federal prohibition agents on
a charge of transporting a gallon of liquor.

Suspension of Knowles was made by a squad of Federal
agents. A gallon of alcohol was
found in the car driven by Knowles.
It is asserted.

The Federal agents then raided
the house and reported finding
twenty-seven additional gallons of
assorted liquors. Two occupants of
the house, Chief Ryan and Clarence
Thompson, also were arrested, being
charged with possession of liquor.

Knowles declared he was on offi-
cial duty at the time of the arrest
and was searching for a party un-
der the orders of a superior officer.
Forbes, he says, got out of the car
near the place of arrest and came
back with a bundle. The latter did
not explain what was in the bundle.
Knowles says, and he did not learn
that it was liquor until after the
arrest. The officer says he will be
able to prove his innocence.

Fashion

The youth tell us, Times
have changed. And a
new proof of this is in
the modes. For the
pertinent problem is no
longer "What are they
wearing?" It's "What
will they wear tomor-
row?"

Perhaps she has made
those early spring invest-
ments—a print or polka
dot. But what next?
Of course, the chic
woman wishes to antici-
pate Fashion's rapid
hurdles in the summer
mode. Then, let her
purchase one of the new
cape coats. And, speak-
ing of capes—do you
visualize just the old-
fashioned cape your
grandmother wore?
Don't! The cape has
been glorified by a
wealth of designs; it is
no longer a simple cape.
It is an uneven one or
several capes in one,
deftly varied by the arts
of the French Modiste.

Then, what will the
modish woman wear un-
der this charming wrap?
At least one of the three
new shades—Mauve
Orchid, Rhapsody Blue
or Serenade Yellow.
And how well-dressed
she will feel! For these
colors are just as in-
triguing as they sound.
And she will have worn
hers first.

GIRL BACKED AS NEVADA ORATOR

Miss Morris of Fallon Wins Acclaim

Defeats Two Boys from Reno and Sparks

Arizona's Contender List Near Completion

Four girls and two boys will compete in the Nevada State finals in the Fifth National Oratorical Contest, to be held at Reno the 20th inst., according to word received yesterday by Prof. Alan Nichols, contest director.

The selection of the sextet of orators was completed at Yerington Saturday, when Mary Katherine Morris of the Churchill County High School of Fallon was declared the winner.

Quaid Gray of Reno High School and Joseph Jackson of Sparks High School.

Miss Morris' victory was declared to be so impressive that she is being hailed as one of the most likely candidates for the State championship. Even the fact that one of the six students who will oppose her is Frank Ford, winner of last year's State contest, does not cause her boosters to waver. In their opinion that she will be the Nevada representative in The Times grand finale to be held here May 4.

STATE CHAMPION
For the past two years Miss Morris has been a member of the championship debating team of Nevada and for the past three years has won the extemporaneous speaking championship of the State. She is president of the student body of her high school. She devoted nearly a year to the preparation of her oration.

Miss Morris will be opposed for the State honor by Virginia Garde of Tonopah High School; Frank Ford of Winnemucca, representative of Humboldt County High School; Marie Vetter, Elko County High School; Cecile Dotson, Las Vegas High School and John Harder, winner of the White Pine county contest.

Miss Garde, also one of the last of the district winners to be chosen, defeated Myrtle Bowler of Goldfield and Neva Ingalls of Manhattan. She has taken an active part in dramatic, declamation and essay contests at her school.

ARIZONA CONTENDERS
The list of contestants for the Arizona oratorical championship will be completed the 13th inst., when District No. 1 selects its representative at the elimination meet to be held in Tucson.

Two district winners, William "Eddie" of Bisbee and William Van Denochoten of Scottsdale, were chosen Saturday. Eddie defeated Jane Hatton of Elgin and La Buis of St. David. Van Denochoten defeated Ben Bolter of Chandler and Wayne Davis of Mesa. The latter student, who was president of the Mesa High School student body 1937-1938, one of the State finalists in 1936 and one of the district contenders last year, was favored to win the district honor this year. His defeat by Van Denochoten was a surprise to all.

The two previously selected district representatives are Newton Ferguson of Prescott and Donald R. Jacobs of Phoenix.

TRAEGER PERILED IN CAR CRASH

Collision Crushes Side of Sheriff's Auto on Way from Long Beach

Sheriff William I. Traeger narrowly escaped serious injury yesterday when a car in which he was riding from Los Angeles to Long Beach, driven by his chauffeur, Charles Butler, was struck by another machine as the latter car turned to enter the Virginia Country Club grounds.

The Sheriff's car was behind a truck and the driver of the other machine did not see it until he was too close to avoid striking it.

The occupants escaped with only slight cuts and bruises.

SEND-OFF PLANNED
Mark Larkin Will Be Tendered Farewell by Wampus

Mark Larkin, president of the Wampus, who recently has been appointed western editor of Photo-play Magazine, will be given a send-off by Wampus members when he leaves for New York with James R. Quirk, publisher of the magazine.

The side of the Sheriff's car was crushed in and the machine driven against a bank. The occupants escaped with only slight cuts and bruises.

SALVATION ARMY WORK EXTOLLED
Lieut.-Gov. Fitts Praises Organization at Meeting of Campaign Committees

Extolling the good work of the Salvation Army both in the World War and in salvaging broken lives in daily welfare work, Lieut.-Gov. Fitts yesterday was the featured speaker at a meeting of campaign committees conducting the organization's campaign for funds for the Truvelo Home. A record crowd attended the luncheon meeting at the City Club.

"The Salvation Army has no need of hesitancy in coming before the public at any time for public support of Salvation Army enterprises," Lieut.-Gov. Fitts said.

He outlined the good done by the Salvation Army in every-day life, emphasizing its help in combatting crime and poverty. He said crime costs the government \$1,000,000 hourly and that if the various governments spent as much money on making citizens as is spent on efforts to remake them, there would be no crime problem.

Reports were read showing that approximately \$38,000 of the \$150,000 required has been raised.

It was pointed out yesterday that there will be but one more luncheon meeting of the campaign workers, next Thursday at the City Club. The leaders in the drive hope to reach the building fund goal by the end of this week. To this end it was requested yesterday that contributions be sent to those so desiring to 104 William M. Garland Building, North and Spring streets.

James R. Quinn, former national commander of the American Legion, presided at yesterday's meeting.

Earnings Proof of Competency
A bond carrier who can accumulate \$80,000 has evidenced his mental competence in the opinion of Judge Montgomery of Superior Court. And so Perry Curtright will have two guardians.

His daughter was before Judge Montgomery yesterday seeking to be appointed guardian, asserting that her father was mentally incompetent. It was testified that Curtright had started out as a bond-carrier but had opened two boarding-houses in partnership with another person and had amassed an estate of \$80,000 from the venture. He is 72 years of age, and a resident of Montebello.

"A man who can manage his own affairs as this man has does not need a guardian," Judge Montgomery ruled.

Judge Decides Bricks Blemish
The question of whether 6000 bricks composing a smoke house in a store at 241 South Spring street constituted an improvement to the structure was one of the knotty problems up for a decision by Judge Montgomery yesterday.

In a suit brought by Nels A. Anderson against J. Reine, A. Chain and Louis D. and Clarence B. Fay, Anderson sought to collect pay of \$275 from the Fays, who asserted the bricks, rather than an improvement, were a nuisance and that it would cost money to remove them. The testimony was that Anderson contracted with the Fays for the work. The judge decided for the defendants.

Woman Check Raiser Released
Mrs. Willie D. Richardson, young woman who pleaded guilty to a charge of having raised a government compensation check, given her on account of her late husband's service in the war, from \$30 to \$300,000, and attempted to cash it, yesterday was granted probation by United States District Judge McCormick.

The young woman first was sentenced to eighteen months in Federal prison, the sentence was suspended and she was placed under probation for five years. The court has been assured by Mrs. Geraldine Morris that she will give the young woman employment.

YOUTHFUL SUSPECTS CONFESS BURGLARY
Two youths, charged with suspicion of burglary and other serious offenses, taken into custody yesterday at 237 North Flower street, are said to have confessed breaking into a tailor shop at 923 1/2 West Temple street last Thursday night. They gave their names as Hilbert Mount, 20 years of age, and Clement G. Grouse, 17, both of 252 North Flower street. Besides the burglary accusation, Mount is charged with grand theft, violation of the Dyer Act and carrying concealed weapons.

Moderator to Open Presbytery Session
Rev. Louis Kinning, moderator of the Los Angeles Presbytery, will deliver the opening sermon of the regular spring session of the body tonight at the Pomona Presbyterian Church. Meetings to continue through tomorrow and Thursday. The organization consists of 313 ministers, representing 108 churches in Southern California.

Fun to be the chief motif of this morning's Breakfast Club meeting, which is described as a "Springtime Carnival." Speakers include Dr. Frank Crane, Frank Bristol and W. H. Evans. Entertainment consisting of musical novelties is to follow.

W.C.T.U. MEETS THURSDAY
A meeting of the Los Angeles chapter of the Women's Christian Temperance Union will be held Thursday, at 2 p.m. in the First Methodist Church, Eighth and Hope streets. Dr. M. Len Hutchins, who is to deliver a sermon on an extended trip as around-the-world missionary for the union, will be guest of honor.

AIRPORT TALK SCHEDULED
J. G. Woolley, vice-president and general manager of the Western Air Express, will speak on "Real Facts About Airports" before a meeting of the Association of City Planners of Los Angeles County the 14th inst., at 12:15 p.m. at the Hollywood Park Hotel on Iowa street, Hollywood. Mark Daniels, a chief, will also speak on "History and Development of the Airport's Viewpoint."

TWO AUTOS BURN
Fire of undetermined origin destroyed two automobiles yesterday in the rear of the Armstrong Funeral Home, 769 West Venice boulevard. Police report the owners' names as Herman Ufer, 775 Boulevard, and Dr. Charles E. Ames, 1433 South Bond street.

NOTED FOR THE WITNESS OF ITS FINE HOME COOKING

TRAEGER PERILED IN CAR CRASH

Collision Crushes Side of Sheriff's Auto on Way from Long Beach

Sheriff William I. Traeger narrowly escaped serious injury yesterday when a car in which he was riding from Los Angeles to Long Beach, driven by his chauffeur, Charles Butler, was struck by another machine as the latter car turned to enter the Virginia Country Club grounds.

The Sheriff's car was behind a truck and the driver of the other machine did not see it until he was too close to avoid striking it.

The occupants escaped with only slight cuts and bruises.

SEND-OFF PLANNED
Mark Larkin Will Be Tendered Farewell by Wampus

Mark Larkin, president of the Wampus, who recently has been appointed western editor of Photo-play Magazine, will be given a send-off by Wampus members when he leaves for New York with James R. Quirk, publisher of the magazine.

The side of the Sheriff's car was crushed in and the machine driven against a bank. The occupants escaped with only slight cuts and bruises.

SALVATION ARMY WORK EXTOLLED
Lieut.-Gov. Fitts Praises Organization at Meeting of Campaign Committees

Extolling the good work of the Salvation Army both in the World War and in salvaging broken lives in daily welfare work, Lieut.-Gov. Fitts yesterday was the featured speaker at a meeting of campaign committees conducting the organization's campaign for funds for the Truvelo Home. A record crowd attended the luncheon meeting at the City Club.

"The Salvation Army has no need of hesitancy in coming before the public at any time for public support of Salvation Army enterprises," Lieut.-Gov. Fitts said.

He outlined the good done by the Salvation Army in every-day life, emphasizing its help in combatting crime and poverty. He said crime costs the government \$1,000,000 hourly and that if the various governments spent as much money on making citizens as is spent on efforts to remake them, there would be no crime problem.

Reports were read showing that approximately \$38,000 of the \$150,000 required has been raised.

It was pointed out yesterday that there will be but one more luncheon meeting of the campaign workers, next Thursday at the City Club. GREAT COMEDIAN TURNS WRITER

Charlie Chaplin Authors Series of Stories on Actors; Patsy Miller Plays in Part-Time Marriage Film; Marceline Day Will Be Keaton's Heroine

BY GRACE KINGSLEY

The genius of Charlie Chaplin is finding outlet in a new medium of expression. The world's finest comedian is writing a series of short stories, which later will be published. He told us about it the other night with his usual bubbling and yet earnest enthusiasm. The stories, of course, will concern screen characters and players, at least for the most part; and if they are all as good as the one he told me about, which is the best old player—but there, I shall be telling in a moment, and that wouldn't be fair.

However, Chaplin has energy for many enthusiasms, and he is having just as much fun as usual changing his mind about what his next picture will be. I think it is only in this way that he retains his pristine interest in comedy-making after all these years. Or perhaps he just likes to have so many ideas, he cannot make up his mind which one to choose. This latter seems to be the case at present.

I feel quite certain that just now "The Suicide Club" holds most of Chaplin's interest. Especially is he interested in the characters and philosophic angle which he is to stress. But don't let those big words frighten you. The picture is to be a great comedy with all the laughs you can possibly desire.

Chaplin has another great theme in mind—a story so fine and tender and wonderful that it is in some ways like Dickens and in others like Barrie, but always it retains the flavor of Chaplin, with his intense sense of comedy; his penetrating humor.

The story centers around a little girl, I'm sure the comedian is much in love with this story, and that he will make it in such a way that it will be a masterpiece.

"The Gold Rush" and that superlatively delightful comedy, "The Kid." Chaplin says that he hardly goes near the studio until he is all ready to start work, because he gets panicky when he sees all the workmen standing about waiting to be told what to do.

"Then I've just got to start," he says, in his droll way. "I try to pretend I know what I'm going to do, and I tell the men to build a staircase here and a window there, and pretty soon I actually do know what to do!"

Tiffany-Bliss's Answer
Just in case those other comedians who are to make stories deal-

ing with the somewhat touchy theme of companionate marriage do not treat the subject with becoming seriousness, Tiffany-Bliss is going to have an answer all ready for them.

The company announced it is to make answer to all these new ideas in a picture called "Marriage of Tomorrow."

James Flood is to direct, and Patsy Miller will play the leading female role.

Miss Miller is now in New York on her way home from Europe.

Marceline Day with Keaton. Now that the smoke of battle has cleared away, it is discovered that Buster Keaton has decided on Marceline Day for his leading lady in his next Metro-Goldwyn-Mayer comedy, not yet titled, and which he is to make in New York.

Metairie Talmadge Keaton and Dorothy Seaton have both been cited as occupying the place of leading lady opposite the comedian, but the matter was all settled late last week.

Miss Day and her mother, Mrs. Irene Day, left Friday night for New York. Alice Day was quite anxious to make the trip, too, but decided that she had "other interests here."

"This will be Marceline's very first trip to New York, and she is naturally all excited about it. Chicago is not to be neglected, either."

Evadne Hall in "The Divine Lady." Evelyn Hall, London actress, who made so favorable an impression recently in "Smarmy's Party" at the Writers' Club, has been engaged by Corinne Griffith for an important role in her first National picture, "The Divine Lady."

LOSES FEE**

Supreme Court Upholds
Lower Tribunal

Case Echo of Klan Fight at
Anaheim

May Hold Private Citizens
for Payment

SANTA ANA, April 9.—The order issued three years ago by Superior Court restraining the city of Fullerton from paying \$5000 to Edward S. Ward, head of a detective bureau, for gathering evidence in liquor cases in connection with county-wide raids of 1924, has been upheld by the State Supreme Court. This final decision in the case has been announced by the official opinion of the court not yet having been filed.

It was understood at the time of the trial before former Superior Judge R. V. Williams in 1932 that Ward had entered into an agreement with William Starbuck, Albert Stetka, both of Fullerton, and Leon Myers, former Anaheim minister and head of the Ku Klux Klan in Orange county, to guarantee payment if the city failed to pay its demand. Accordingly it was believed today, in view of the Supreme Court decision, that Ward might have recourse to his agreement with Starbuck and Stetka. Myers is no longer a resident of Orange county, his present whereabouts being unknown.

The agreement between Ward and the Fullerton citizens was mentioned in files of the court case, an order having been made that it be produced in court.

Ward and his operatives, thirteen in number, were brought to Orange county at the instigation of Klan leaders and supporters of the Anti-Saloon League, it was said, and engaged in detective work throughout Orange county. Ward, who was charged with contributing to the delinquency of a minor, having supplied liquor to Ivory Shields, 26-year-old chauffeur, of Santa Ana, in an effort to get evidence against him. They were convicted of the offense and appealed, but later their case again was reversed. A bench warrant was recently issued for their arrest, bond for their appearance having been forfeited. As yet they have not been found.

**Four Held in
Disappearance
of Two Girls**

UPLAND, April 9.—Four men of this city today were ordered to appear before Judge George R. Crane on the 17th inst., in connection with the recent disappearance of two 16-year-old schoolgirls here.

The girls, who are now wards of the Juvenile Court, are Glendora Alsop and Dorothy McKenzie. The men are held in connection with the flight of the Alsop girl. A bench against whom charges have been filed, are Emory Gaskin, 1805 North Euclid avenue; Harold Kennedy, 724 East Ninth street; Charles and Peter Hagan, 348-A street, all of Upland.

Chief of Police P. P. Sawyer and Deputy Sheriff J. A. Larson made the arrests following investigation launched at the time of the girls' disappearance. Judge Crane set bail at \$1000 in each case. Southern California police caught the girls four days. Twice they were reported seen in Los Angeles. They were finally traced to San Diego.

**REGISTRARS FOR
PRIMARIES INCREASE**

SANTA BARBARA, April 9.—Santa Barbara county's total registration for the Presidential primaries, May 1, is 15,071, according to figures compiled last week after a afternoon by County Clerk D. F. Hunt. The total number of Republicans registered is 12,459, while the Democrats totaled 4118.

Within the city limits of Santa Barbara the total registration is 10,349, as compared with a total of 7722 in the outlying districts of the county. Of the minor party registrations, 130 registered as Prohibitionists, 88 as Socialists. Declined to state party affiliations numbered 1560.

In the general election of November, 1928, the total registration in the county was 17,400, or 671 less than the registration for the May primaries.

SKULL FIND HINTS CRIME

Murder of Twenty-eight Years Ago Suspected as
Pipe-Line Diggers Unearth Part of Skeleton

UPLAND, April 9.—While workers were digging along a pipe-line between Twentieth and Twenty-first street on Mountain avenue today, seeking the bones of a skeleton, police were trying to establish identity of a skull found by Upland city workers.

A murder mystery may be associated with finding of the skull, according to police, or the strange disappearance of a man from Upland thirty-four years ago may be linked with the gruesome find.

Examination of the skull disclosed a basal fracture which leads to the theory of murder. The gang of city workers under W. E. Ertel, engaged in removing an old pipe line, uncovered the skull at considerable depth directly over the pipe line. One of the workers thought the skull was a rock and threw it from him. The "rock" rolled over and the jaw bone dropped, revealing the

**HUGE LIONESS
RAIDS RANCHES**

West Yucalpa Hunt Planned
for Hunt That Carries
Off Cows and Goats

YUCAIPA, April 9.—Farmers of the West Yucalpa section are hoping that the bounty recently placed on mountain lions by the county will result in the death of the big lioness which has terrorized that section for months.

R. Whaley saw the big cat several nights ago and says that it is one of the largest he has ever seen. He saw it just after it had killed a fine milk goat near his barn. The whole body of the goat had been ripped to pieces.

A colt was carried off from a ranch in the West Yucalpa section and chickens and geese have been missing in large numbers. The farmers are considering joining together in a hunt as the State and county bounty now for a mountain lioness is \$105.

**PASADENA
SUNSHINE
PLEASES**

Former Cabinet Member
Improved by Climate of
Southland

PASADENA, April 9.—There is no immediate cause for alarm among former Secretary of the Interior, according to Dr. Stephen Smith, medical director of Las Encinas Sanitarium, where the former cabinet member is residing in seclusion today following his arrival here Saturday from El Paso, Tex. Rigid seclusion in order to expedite his recovery will prevent intimate contacts with the public, sanitarium officials said today.

Mr. Fall appeared cheerful as he sat in a wheel chair on the porch of his cottage this morning. "I am sure I am going to enjoy and profit by my stay in Pasadena," he said.

**Four Held in

**ENLARGED FIRE
FORCE NEEDED**

Expenditure of \$135,000 by
Santa Barbara Urged

Fresno Chief Makes Study of
Channel City System

Addition of Fifty-six More
Men is Recommended

SANTA BARBARA, April 9.—Complete reorganization of the Santa Barbara Fire Department and the purchase of approximately \$135,000 worth of new equipment and buildings were recommended in the report made to the police and fire commission by Chief Thomas Baird of the Fresno Fire Department. This fire is considerably below that advanced by Robert S. Andrews, assistant chief engineer for the National Board of Fire Underwriters, who estimated recently that it might be necessary to spend \$200,000 in building up the department.

Chief Baird's report, a thirteen page document, supplemented by a folder of detailed records from his own department, was presented to the commission. The chief explained every recommendation in detail, giving reasons based on practical experience with his own department, which is considered a model organization.

Among the major improvements recommended in the report are the installation of twenty-five hydrants in the business district, construction of a new fire station in the vicinity of Constance avenue and Chapala street, purchase of two new fire engines, a combination pump and hose wagon, purchase of a site for a fire station in the vicinity of Santa Barbara and Valero streets to house a squad company, provision of space for an adequate drill yard and construction of a fire-dry drill tower, a ventilation house, and a fireproof "smoke house" for training in fighting fires with smoke helmets; purchase of a new ten-drum repeater and installation of about forty-five fire alarm bells in and around the business district, that headquarters fire alarm system be housed in an isolated, one-story fireproof building and installation of a private switchboard in fire alarm headquarters.

Mr. Baird also recommended increasing the personnel of the department to fifty-six men. All these would not be employed immediately, as several of them would be used in the new fire stations recommended. A suggestion that Fire Chief A. H. Cooley of Santa Barbara attend a school for fire training also was made by Chief Baird.

**Citrus Junior
Seeks Honors
With Debaters**

GLENDORA, April 9.—In an effort to win the junior college championship in debating, Citrus Union Junior College here will enter their team in the final meet to be held in Long Beach on May 11, according to Wesley Smith, former instructor at the school.

The dual debate will be staged against the Long Beach Junior College and the affirmative team, Carl Wright and Willis Hawkins, will give their arguments here, while those on the negative, Lucile Reed and Bertrice Mull, will go to Long Beach.

Subject of the debate is: Resolved, That the Modern Interpretation of the Monroe Doctrine as Applied by the United States, is to be Condemned.

After holding the championship of the San Gabriel Valley league for three years, Citrus debaters will vie with the Monrovia team for new honors on May 4 at Monrovia. Mr. Smith said.

The outstanding debate of the season is yet in store for the Citrus High School team, who will meet the Hollywood High School on June 1 at Alhambra. The meet determines the champion debating team in the Southern California League of High Schools, according to Mr. Smith, who stated that this is the first year that Citrus has been affiliated with the league. Citrus is the smallest school in the league by 100 pupils, Mr. Smith said.

The debate subject will be: Resolved, That the Recent Tendency Toward Mass Education in the Part of Colleges, is to be Condemned.

**YOUTHS "CLEAN UP"
ON EASTER BUNNIES**

SEPUVEDA, April 9.—Almost all of the little boys in San Fernando Valley living with their parents on small ranches raise rabbits and they "cleaned up" on Easter Sunday and the day preceding.

Yesterday the concrete highways in the valley were filled with thousands of city motorists seeing the sights, following the sunrise services of service at churches. At almost every section they passed were some boys with their Easter bunnies for sale as a part of the Easter-day spirit, and literally thousands of the little animals were sold and carried home. Most of the rabbits sold for 50 cents apiece at numerous important intersections in the valley.

One boy living between here and Reseda on the west raised many small rabbits for his Easter trade. He stated that by nightfall he had sold sixty of his bunnies at an average of a half dollar apiece.

**WAITS IN JAIL IN
DEFAULT OF BOND**

MONROVIA, April 9.—Ervin Dahl, 24-year-old Monrovia man, was lodged in the City Jail last night following his arrest for the possession of liquor by Vincent Boller, Spickerman and Morris.

Officers found one-half gallon of whiskey in the back of Dahl's car parked in front of a local cafe here. Dahl is in jail in default of \$250 bail. His trial will come before Judge Sturgeon Friday morning.

COMMUNITY PLAYERS MAKE HIT

Whittier Actors in Fifth Production

R. R. Miller and Dorothy Anna Douglas
Who portray leading roles in "Granstar," fifth play given this season
by the Whittier Community Players.

**TRAFFIC ON
NEW BRIDGE
INCREASING**

Highway Improvements to
Further Aid Popularity of
Route Through Blythe

BLYTHE, April 9.—A steady increase of traffic over the new \$400,000 bridge on the Sunset Trail connecting California and Arizona here is being registered, according to Manager Mahneck. An average of eighty cars daily cross the new structure, compared with an average of twenty-five cars daily on the ferry, operated by the bridge company, which was closed for repairs last week. An increase of 20 per cent over the past week is shown by the bridge counter.

One cause for the steady gain in transcontinental traffic here is twenty-four-hour service. The ferry stopped at 6 p.m., as sand bars made night travel treacherous. It was estimated that the new bridge will carry a traffic of about twelve cars a day over the bridge, although electric power is now shut off at night. The bridge of Blythe, several business houses are open twenty-four hours, maintaining their own lighting system.

According to authentic advice from Phoenix, improvement of the Arizona highway from Ehrenburg to Quartzite, a distance of twenty-five miles, will begin May 1. The last \$150,000 for this work. With the State of California highway work from Blythe to Quartzite assured during the next six months, and the bad stretch on the Arizona side to be improved, tourists taking this route is expected to increase 10 per cent, according to Manager Mahneck.

**MISSING SCHOOL
TEACHER LOCATED**

GLENDORA, April 9.—Miss Jessie M. Weber, missing Lemoore school teacher, who has been the object of a search extending over Southern California, has been found, according to information reaching the police department here last night. Miss Weber disappeared Friday after visiting friends in Glendale, and in a message to relatives she stated that she had been changed her mind about returning to her home in Whittier and had intended to go to Los Angeles.

**INSISTENT PROWLER
MAKES GOOD ESCAPE**

GLENDORA, April 9.—Calls for help from the home of Miss A. M. Castle, 807 South Mariposa street, last night, brought Detective Sergeant Henderson and Detective C. V. Culp to the house, where they were informed that an intruder demanded entrance and when the door was refused, had attempted to tear the screens off the windows in the effort to enter the house.

Miss Castle was able to give a good description of the man, but a search of the neighborhood failed to reveal any trace of him.

FIDDLERS TO PERFORM

HANFORD, April 9.—Fifteen old-time fiddlers have been invited to participate in the fiddlers' contest by Winfield Scott Boyd, one of the first settlers of Kings county, who is to be in charge of this feature of the Hanford Homecoming and Pioneer Day Friday, May 11. There are to be three cash prizes.

"OL' MAJOR" TAKES HER HOME

Joy and Sorrows of Georgia Plantation Slave Days Flash
Back to Mind of "Aunt Mandy" as She Lies Dying
3000 Miles from Scenes of Her Youth

RIVERSIDE, April 9.—"De' come to me—the Ol' Major and Miss Mary." Almost with her dying words Amanda Deaton, 80-year-old Riverside negro woman, harked back to the days when she was a slave in Georgia and was the maid of Miss Mary. The elderly woman, whose funeral is being held today, was not one of those who rejoiced at receiving her freedom.

Almost through her life she looked back upon the time when she was a slave as the happiest days she ever knew. As a lady's maid she slept on a trunk bed at the foot of her mistress, received the cast-off finery of Miss Mary and had not a care in the world.

**DRASTIC ORDER
FOR MOTORISTS**

Drivers Without Licenses
Will be Fingerprinted

Pomona's Chief Defends
Rigid Enforcement

First City in California to
Adopt Such System

POMONA, April 9.—Issuing orders to police officers that all violators of the State Motor Vehicle Act, who cannot produce operator's licenses or exhibit a chauffeur's license at the time of their arrest, must be brought to the police station and fingerprinted, Chief of Police I. B. English today took a drastic step toward more rigid enforcement of the State law in an effort to curb automobile thefts and other violations, and is believed to have established a precedent in the State.

Four traffic violators felt the sting of the new order yesterday. Miss Irene Ingber, 155 North Walnut street, Riverside; Frank Verma, South Turner avenue, Ontario; Ovid Wald, Clenshaw avenue, San Dimas; and W. W. Hemmingsway, 343 West California avenue, Glendale. The four were cited into the local station at various intervals yesterday, their arrests being for speeding and none of them exhibiting operator's licenses. The four were fingerprinted and forced to positively establish their identity before they were released on bail to appear later in answer to the speeding charges before Judge E. H. Bowen.

Commenting on the new ruling today and answering criticism that the step was too drastic, Chief English said:

"A request for positive identification is no reflection upon one's character and honesty; for the complete record of each person who will establish a positive personal identification."

**Grape Growers
Make Plans for
New Shipments**

FRESNO, April 9.—Ratifying modifications of the 1933 shippers' clearinghouse contract adopted at the meeting of the executive committee in San Francisco Saturday, directors of the California Vineyardist Association today cleared the way for 1934 distribution of the California crop of fresh grapes to the United States.

One of the chief changes for the coming season is a regulation making all shippers members of the advisory committee of the district in which they operate, and establishing a committee of the district of the State. Four committees, appointed by the directors, served as advisers last year. Committee will be organized in the following districts: Santa Rosa, Napa, Ukiah, Redwood, Lake, with subcommittees on the American River, Modesto, with a subcommittee at Turlock, Fresno, Eureka and Colusa, with Imperial county service extended from Ontario.

The directors are also considering a petition of mutual-grape growers that the association seek modification of the Manhattan embargo against table-grape packs of mutual-grape growers from the four-labeled crate pack.

Secundo Guasti, Jr., of Cucamonga; Charles Lallier, of Ontario, and other producers of wine, raisins and other grape products conferred with Com. and Vice-President J. E. Colquhoun, Arizona representative of the grape-products division, in which membership is daily reported to represent approximately 65 per cent of the total manufactured tonnage of the State.

Details of the clearinghouse program will be discussed at a meeting of San Joaquin Valley shippers here tomorrow.

**RELATIVES OF AUTO
VICTIM ARE SOUGHT**

FULLERTON, April 9.—Police here have enlisted the aid of Los Angeles police in an effort to definitely establish the identity and locate relatives of a man believed to be J. E. Lee, who died today as a result of injuries received when he was struck by an automobile driven by F. B. Wickes of Anaheim near La Habra last night. Lee died at the Fullerton General Hospital, where he was taken by Wickes following the accident.

According to a report to La Habra police by Wickes, he and Lee, who was walking on the boulevard, until his car was almost on him. In an effort to avoid striking the pedestrian, Wickes swung his car into a telephone pole, but escaped injury in the crash. Lee was taken to the Fullerton hospital in a taxi car at Wickes' direction. Lee's last address in Los Angeles was at 601 Hewitt street. The landlady in a rooming-house at that address said he had left there last November.

**MONROVIA POLICE
HAVE BUSY MONTH**

MONROVIA, April 9.—Nineteen hundred and eighty-five police calls were answered by the local police department during the month of March, according to Chief of Police Frank Scott.

Prisoners held in jail during the month totaled twenty-seven and 143 city arrests were made. Chief Scott said.

Fines collected totaled \$168 and bail forfeitures \$678.

City Mother Woodland reported twenty-three juvenile cases.

**PIONEER DAIRYMAN
SUCCUMBS AT WASCO**

BAKERSFIELD, April 9.—Christian Paulsen, 60-year-old Wasco dairyman, pioneer of California and resident of Bakersfield for eighty years, died yesterday at his ranch home five miles north of Wasco. He leaves his widow, Mrs. Anna Paulsen and five minor children who have resided for two years.

Funeral services will be conducted at 3 p.m. tomorrow at Pickering chapel, and the body will be taken to Anaheim, where burial rites will be conducted Wednesday.

**ROTARIANS WILL
ATTEND LUNCHEON**

COVINA, April 9.—Rotarians will be guests of Miles B. Scofield, commander of the local American Legion post, at a dedicatory luncheon to be given Thursday noon at the opening of his new store building, 1001 North Main street.

Representatives of the Chamber of Commerce and American Legion men will also participate in the event. The Rotary Club will elect officers on the 1935 inst. It was said.

**TRUCK WRECKED
IN RARE MISHAP**

Family of Three Narrowly
Escaped Death as Wheel
Flew Off Machine

ONTARIO, April 9.—Three persons narrowly escaped serious injury or death here today when a wheel flew off the axle of a large truck and caused the vehicle to plunge into a pepper tree. Those in the truck were Mr. and Mrs. H. J. Baker and young son of Los Angeles.

Baker was driving the machine south on Euclid avenue. The left front wheel flew off and the truck, owned by the Garach Baking Company of Los Angeles, crashed into a large pepper tree in the roadway.

Mr. Baker and the child were badly shaken but were saved from being hurt from the truck by the covering of the machine. The truck was badly damaged.

**NEW THEORY
SIMPLIFIES
CHEMISTRY**

Caltech Instructor Back
from Foreign Study of
"Quantum Mechanics"

PASADENA, April 9.—The entire field of chemistry probably will be simplified and systematized as the result of the new "quantum mechanics" theory, according to Dr. Linus Pauling, assistant professor of theoretical chemistry at the California Institute of Technology.

Dr. Pauling, who returned recently from abroad, where he studied the theory with foreign scientists, said today: "The quantum mechanics theory may be the inception of a science of mathematical chemistry."

"This new science," he said, "will involve not only the physical picture of molecular relations, but also exact mathematical formulas. The new theory will completely explain the formation of chemical compounds, such as sodium chloride (common salt) is equivalent to an equation of the form developed by Prof. G. N. Lewis of the University of California in Berkeley."

Dr. Pauling said that he could not describe, without further study, the practical applications in the chemical world of the quantum mechanics postulate, but that such applications probably will follow.

**Caltech Will
Hold Exhibit**

PASADENA, April 9.—Interesting research work being carried on at California Institute of Technology will be exhibited to the public on Friday and Saturday when the annual exhibition will be held.

The exhibition house Friday from 1 p.m. to 8 p.m. and from 7 p.m. to 10:30 p.m. On Saturday the exhibition will be open from 10 a.m. to 5 p.m. Guides will be provided.

"Merced" the institute's dramatic club play, will be presented in Calhoun Hall at 6 p.m. on Friday. A matinee performance will be given Saturday at 2:15 p.m.

**MONROVIA POLICE
